Diplomatic sources said that Saudi Arabia and Kuwait approved of breaking relations with Iran but that other nations, including Syria, Algeria, Oman and the United Arab Emirates, were opposed.

Unharmed by Crises, Gandhi Survives in Solitude

By Steven R. Weisman

New York Times Service NEW DELHI - Prime Minister Rajiv Gandhi has survived his biggest political crisis since taking office in 1984, but he continues to be seen as an enigmatic politician whom many Indians do not trust or even know very

According to opinion polls, most of those who were aware of a recent military-contract scandal believed that Mr. Gandhi's triends and associates were involved in kickbacks, although no evidence has come to light. Many voters were found to believe that the prime minister may have received kickbacks himself.

In addition, those who follow politics closely say they are mystified about why Mr. Gandhi has failed to retain a Mr. Gandhi has changed his cabinet a dozen times, and

another major reorganization is expected soon. Also, several close advisers have either quit or been forced from office. Even some close friends are said to have fallen from the prime minister's good graces amid

One of the prime minister's associates said that Mr. his conciliatory approach and willingness to label the Gandhi, aloof by nature, is an increasingly solitary man political system as inefficient and dishonest. because of these disappointments.

Mr. Gandhi lately has sought to revive his political fortunes by visiting remote areas of the country and speaking to rural folk.

Still, rumors that Mr. Gandhi had a secret Swiss bank account became so fierce in the capital that he was forced to address the matter in Parliament "I categorically declare, in this highest forum of India's

democracy, that neither I, nor any member of my family, has received any consideration in these transactions," he said in an extraordinary statement last month. "That is the Aides to the prime minister argue that the worst is over.

They point to a recent poll of 10,000 Indians showing that he would be re-elected by a comfortable margin today. But the poll, sponsored by India Today magazine and MARG, an opinion research organization, also gave him mixed ratings, at best on his performance and integrity. In his first year in office, in 1985, Mr. Gandhi was considered a popular, "clean" leader, widely acclaimed for

Two years later, rising dissatisfaction over sectarian violence and the economy have taken a toll, as have

charges of kickbacks in military contracts. So far, no recipients of such payments have been traced. Behind the scenes. Mr. Gandhi faced growing dissatisfaction from longtime leaders of the ruling Congress (I) Party, and that disaffection came to a boil when the party lost a string of local elections this year. The defeats touched off what his aides acknowledged to have been a

genuine crisis. It began when Zail Singh, the president at the time and a longtime family ally, charged that the prime minister had snubbed him. The subsequent rift between the two coincided with a furor over the handling of the kickback

Instead of moving to uncover the scandal, Mr. Gandhi dismissed his popular defense minister. V.P. Singh, who then allied himself with the president, who is not a relative.

In July, it was disclosed that another former cabinet See GANDHI, Page 6

Rightists Still Incite Fear in Argentina By Bradley Graham

Bashington Peri Service

BUENOS AIRES - A prominent financier disappears in Argentina. More than \$1 million is paid as ransom but he is not returned. Although police investigators implicate several army intelligence agents in the crime, the case remains open more than two years

For the administration of President Raul Alfonsin, the failure to solve the July 1985 abduction of Osvaldo Sivak, a banker and real-estate investor, stands out as the embarrassing and troubling symbol of the government's impotence against extreme rightist squads that still operate in Argentina.

These rogue groups, described by government officials as vestiges of military rule and composed of former and current agents of the military intelligence and police services, continue to kidnap, bomb, steal

Within the past two months, they have been accused of robbing the tomb of Juan Peron, the former Amentine president, and of bombing more than a score of offices of political parties as well as houses of judges and military personnel loyal to the government.

fear and instability to make Argentine democracy,

restored three and a half years ago, look too weak to protect the public.

While the attacks have struck at only a small sector of society, and while few have left casualties, the violence has unnerved a country psychologically scarred by the terrorism of the 1970s. Public opinion surveys indicate that while most Argentines perceive little personal danger, a collective sense of insecurity

Similar anxieties, although much more acute. prompted the armed forces to overthrow the constitutional authorities in 1976. Military commanders then conducted a campaign of kidnapping, torture and murder aimed at eliminating not just leftist insurgents but most dissent.

Since the military relinquished power in 1983, Mr. Alfonsin and his aides have been unable to remove all anti-democratic forces from sensitive state jobs, particularly in the military-intelligence services.

Interior Minister Antonio Troccoli complained in July about "enemies from within" and called the security issue "the most vulnerable aspect of the tran-

sition" from military dictatorship to democracy. Circumstantial evidence points to the ultra-right as Their aim, officials say, is to promote a climate of the source of the problem. In June, for instance,

call them crawfish.

The Cajun crayfish are filling a gap left by native Swedish crustaceans and Turkish imports, both of which have fallen victim to a fungus. In fact, the crayfish pest first appeared in Sweden near the turn of the century, but it was not until about a decade ago that a serious shortage of the domestic strains became apparent.

Dropping the yearly crayfish lestivities in the face of dwindling Swedish supplies was never considered a possibility. "It's just something we Swedes have to do," said Nils Ingvar Lundin, an

Mr. Lundin, wearing a silly hat like the other guests, then cracked a crayfish in half and began sucking on the head with gusto. Next, he broke the claws for their few strands of meat, followed by the tail flesh, which he extracted with

A crayfish dispatched, Mr. Lundin poured himself and his guest each a shot of aquavit, the strong Swedish liquor, raised his glass and downed it. For those of sufficient fortitude, the routine is repeated a few dozen times in an

Ship Worker

SEOUL — Distident leaders made it clear Monday that they will try to use the recent death of a young worker to increase pressu on the government, arguthe killing, apparently from a po-lice tear-gas grenade, proves that South Korean rulers are not committed to democratic reform.

A spokesman for the National Coalition for a Democratic Constitution, which organized the protests in June that persuaded the government to agree to hold direct elections, said the group was hoping to turn the worker's funeral into a national rally on Wednesday. "It's a sign that this government

may not be able to change its behavior toward the democratic way," said a dissident leader, the Reverend Park Hyung Kyn. "Their tendency to use violence, to use their power, cannot be changed."

Leaders of the political opposition made similar charges Sunday in an escalation of rhetoric on the case. The ruling party urged politi-

partisan purposes.
It remained unclear, however, whether workers - who have struck about 1,600 companies since July 1 — will step up their protests in response to the death.

cians not to exploit the death for

The worker, Lee Sok Kyu, 21, was killed Saturday during a clash between riot policemen and locked-out workers from the Daewoo shipyard on the southern island of Koje. He is the first fatality in the labor unrest that has swirled through Korea since the covernment agreed to hold elections later this year.

The cause of Mr. Lee's death has not been officially determined, but workers and doctors have said that fragments from a police-fired tear gas grenade pierced his lung. An autopsy Monday showed that Mr. Lee was killed by four fragments "of an unknown nature" in his lung, and the fragments were sent to a national laboratory for analy-

Kim Young Sam, president of the opposition Reunification Democratic Party, called for an investigation into Mr. Lee's death and criticized the government for blocking the workers' demonstra-

"The incident makes me doubt whether the government is genuincly interested in implementing democratization measures," Mr.

Kim Dae Jung, the other chief opposition leader, criticized the police for firing tear gas grenades horizontally at demonstrators instead of into the air. "I cannot but suspect that the police action was intentional, not a mistake," he said.

The ruling Democratic Justice Party responded with expressions of regret and urged the Daewoo shipyard to "exert more positive efforts" to satisfy worker demands. The party also agreed to an opposition request to convene a National Assembly committee to look into

labor unrest. But the ruling party also said politicians should stay out of the

"Any attempts to exploit the problem politically must be rred," it said in a statement.

The Daewoo shipyard, part of a major conglomerate, has 15,000 workers, making it South Korea's second-largest shipyard. Workers there formed a union and began picketing for higher wages about

and shut the yard on Friday, saying negotiations were proving fruitless. rights activist said Monday that the Angered workers took to the streets of Okpo on Saturday and clashed Soviet police broke open an apartwith the police when they charged a hotel where the company president

"This guy dying obviously puts a completely different winkle on everything," a Western diplomat said. "I'm sure the government is very imhappy this happened. It raises the obvious comparisons

with Lee Han Yol." Lee Han Yol, a Yonsei University student, was killed by a police tear gas grenade earlier this summer. His death became a rallying cry for students, and his funeral turned into a rally for democracy that drew hundreds of thousands of

WORLD BRIEFS

Police Break Up Philippine Protest

MANILA (AP) — Philippine policemen dispersed strikers with water cannon Monday in Cebu City, and the government said it would not withdraw fuel price increases that have triggered the mast widespread withdraw fuel price increases that have triggered the mast widespread labor unrest since President Corazon C. Aquino took office last year. Industrials of passenger leep drivers interest strikes on Mon-

Thousands of passenger jeep drivers joined transport strikes on Mon-day in Cebu City, Davao City and four provinces of southeastern Luzon to demand a rollback in fuel prices, which the government raised Aug. 14 by an average of 18 percent by an average of 18 percent.

Militant unions, including the May 1st Movement, said the protests were a prelude to a nationwide general strike set for Wednesday unless the government rolls back fuel prices. The state television said the protests stranded thousands of commuters and forced schools, government agencies and remains and remai ment agencies and private companies to close early on Monday.

Walesa Weighs Invitation to Visit U.S. WARSAW (UPI) — Lech Walesa, leader of the banned labor union Solidarity, said Monday he has not decided yet whether to go to the United States to attend a Sept. 17 ceremony marking the 200th anniversary of the ITS Constitution.

"It's a political decision for me," he said. "I have to wait another two or ry of the U.S. Constitution. three days." Mr. Walesa has turned down earlier invitations to visit the West, saying that the Polish authorities might not allow him to return

The trip would be his first outside Poland since 1981 and his first to the United States. Mr. Walesa is also considering an invitation to aftend a conference in Paris in January for Nobel Peace Prize winners.

Garbage Barge Ends Odyssey in N.Y.

NEW YORK — The garbage barge Mobro docked at a Brooklyn

incinerator Monday, ending a tragicomic 156-day, 6-state, 3-nation quest for a place to dump 3,186 tons of unwanted trash.

A private tng towed the 21-foot (65-meter) barge to the city Sanitation Department's Southwest Incinerator from anchorage off Bay Pides Parallel 18 New York P Bay Ridge, Brooklyn, in New York Harbor. The beaching of the garbage was made possible Aug. 10 when a Brooklyn judge ruled that the trash could be incinerated as long as recyclers first had a chance to runmage through it search of salvageable materials. The trash consists largely of cardboard and plastic.

The approximately 400 tons of ash produced by the incinerator will be trucked to a nearly full runnicipal landfill in the Long Island town of Islip, where much of the refuse originated, officials said.

Israel Raises Romania Case With U.S.

TEL AVIV (Reuters) - Prime Minister Yitzhak Shamir has urged the United States to restore "most favored nation" status to Romania, an Israeli spokesman said Monday. Mr. Shamir was said to have told the visiting Senator John B. Breaux, Democrat of Louisiana, on Sunday that Romania was the only Communist country where Jews lead full lives and may emigrate freely.

"I know Romania has a problem in Congress because of allegations about its treatment of its Hungarian minority," Mr. Shamir was quoted as saying, "but I would like the Jewish minority in the Soviet Union to live in the same situation."

Mr. Shamir visited Romania last week at the invitation of Presiden Nicolae Ceausescu. Israeli newspapers said Mr. Ceausescu wanted Israel to urge the U.S. Congress to reverse its decision in June to suspend preferential trade status with Romania for six months because of report-

Sri Lanka Will Give Monks I.D. Cards

COLOMBO, Sri Lanka (Reuters) — Buddhist monks in Sri Lanka will be asked to carry identity cards because of intelligence reports that some Marxist guerrillas, members of the majority Sinhalese ethnic group, have been disguised as monks, officials said Monday.

The cultural affairs minister, E.L.B. Hurulle, said his ministry was compiling lists of monks, who will be given identity cards to carry at all times. "Any person could go into a shop, buy a set of robes, wear them and pose off as a bhikkhu" or monk, Mr. Hurulle said.

The police say Sinhalese rebels of the outlawed People's Liberation Front, a Marxist movement, had planned to disguise themselves as monks and cause violence on Ang. 18, the day Parliament was attacked. Two persons were killed — one, a parliamentary clerk, died Sunday — and 16 persons, including six cabinet ministers, were wounded in the

Strike Stops Rail Traffic in Canada

MONTREAL (UPI) - Railroad services across Canada were at a standstill Monday as thousands of workers walked off their jobs at midnight Sunday following a breakdown in labor negotiations. The talks broke off Sunday afternoon when union representatives refused to back down over the issue of job security.

Virtually all freight and passenger traffic was stopped immediately except for trains that were en route. Engineers, conductors and other operating employees of both national railroads, Canadian National Railways and CP Rail, are striking. Also striking are signalmen, clerks, track maintenance staff and other employees, as well as skilled workers in railroad garages.

Some Flights Still Delayed in Spain

PALMA DE MAJORCA, Spain (AP) - Charter flights heading in and The company suspended talks out of this Mediterranean island were still being delayed several hours on Monday, nearly a day and a half after the end of a 24-hour strike by air

traffic controllers in Barcelona, news reports said.

Sources at the Palma airport said the delays could continue until early Tuesday. The airport handles up to 550 flights a day, most of them

It was unclear whether the Barcelona controllers planned to proceed with another 24-hour strike on Saturday, followed by a third on Sept. 5. The strikes have been called over a pay dispute. Millions of European vacationers are expected to head home from Spain during the two

Heavy rain and strong winds lashed parts of northern Italy on Monday causing floods, forcing the international airport in Milan to close and touching off fears of more landslides in Alpine valleys. Several national and international flights to and from Milan were canceled.

Seventy-four people died in Spanish highway accidents over the week-end, traffic officials said Monday in Madrid. Since July 1, there have been

362 road deaths in Spain.

A Northwest Airlines jettiner preparing to take off from Minneapolis-St. Paul International Airport on Sunday was forced to brake suddenly to avoid a fuel truck on the runway, slightly injuring two flight attendants, airport police said Monday.

Civil Rights Leader Bayard Rustin. Organizer of '63 March, Dies at 77

NEW YORK - Bayard Rustin, 77, a leader in the civil rights movement who, as an aide to the Reverend Martin Luther King Jr., orga-nized the march that drew 200,000 demonstrators to Washington in 1963, died Sunday at a New York hospital after surgery for a ruptured appendix.

Philip Randolph Institute, had surgery Friday after complaining of stomach pains upon his return from a trip to Haiti, said Norman

In Democrats' Debate, **Dukakis Comes Across** As Early Front-Runner

By Paul Taylor

Washington Post Service DES MOINES, lowa - A televised debate among seven Democratic presidential hopefuls here has produced something that no candidate previously had been able to claim: a consensus for an early front-number.

This front-runner is Governor Michael S. Dukakis of Massachusetts, and his status was affirmed in the backhanded manner typical of such debates: He was the candidate the others were most eager to at-

Senator Albert Gore Jr. of Tennessee led the others Sunday in accusing Mr. Dukakis of speaking in generalities, of bringing a regional perspective to economic policy issues that ignored the plight of farm and oil areas, and of basing his budget deficit reduction proposal on grossly inflated estimates of how much revenue could be faised through a tax amnesty and an aggressive new collection policy. The other participants were former Governor Bruce Babbitt of Arizona, Senator Joseph R. Biden Jr. of Delaware, Representative Richard A. Gephardt of Missouri, the

Reverend Jesse L. Jackson and Senator Paul Simon of Illinois. Representative Patricia Schroeder of Colorado, who will decide next month whether to join the race, was not invited because she did not have the polling support or the declared candidacy required by the sponsors of the debate.

who refrained from returning his opponents' fire both during and after the two-hour debate, which was sponsored by the Iowa Broadcast News Association. It was the second televised debate in which the seven candidates have partici-

"I guess we're gaining," said his national political director, Paul Tully. "We seem to be of interest to a whole lot of people."

Most of the differences between Mr. Gore and Mr. Dukakis were more tactical than ideological. Nevertheless, as the other candidates seemed to realize, Mr. Gore had found a way to separate himself from the field and wrap the debate around himself.

"If I get to 52 percent in the polls in New Hampshire, will you start attacking me like you have Mike Dukakis today?" Mr. Gephardt kidded Mr. Gore near the end of

Mr. Gephardt, Mr. Simon and Mr. Biden took more indirect pokes at Mr. Dukakis after he called for aggressive tax collection.

Mr. Dukakis talked of pursuing \$110 billion a year in uncollected revenues. Mr. Biden ridiculed that figure and said a more realistic projection from increased tax enforcement would be \$2 billion. Both men characterized the Dukakis perspective as "regional" because he is from a state whose prosperity has been fueled by increased military he does not understand the eco-

nomic suffering of the Midwest. In fact, there were virtually no ideological differences on economic and agricultural policy among the seven candidates.

High-Stake Trade Talks

Canada will sit down this week to begin drafting an agreement for free trade. It is a tremendous venture - and risky, in political terms, with high stakes for both countries. Very little attention is devoted to it in the United States, but in Canada the prospect of open trade touches the deepest and most sensitive questions of Canadian nationality and Canada's relations with its huge neighbor. This drive for a free-trade agreement has already gone far enough that, if it now collapses, it will be followed by a time of anger, suspicion and tension between two countries that collaborate to their great mutual profit in the largest flow

of trade across any border in the world.

The talks have been going on for more than a year, and the agreement must go to Congress by Oct. 5. Sometime next winter Congress will then vote on it under fasttrack rules that prohibit amendments. On the U.S. side, most of the opposition so far has come from narrow interests that are unlikely to pose any fatal threat. The doubts are more serious in Canada.

One issue is the treatment of the subsidies that are stitched through both economies. Another is the procedure for reconciling disputes over unfair trading, including the use of those subsidies. What happens when a subsi-

more quickly as experience is gained.

Are they right? Is society unreasonably

Negotiators for the United States and dized product from one country has unsubsi dized competitors in the other? Many Canadian businessmen accuse U.S. companies of using the infinitely complex U.S. trade laws to harass and impede imports. One thing that the Canadians want out of a free-trade agreement is assurance that the harassment and endless litigation will cease. That will be difficult to work out. Canadians also want a guarantee that American investors won't he allowed to buy up their country. In particular, there are great fears for Canada's cultural industries: publishing, film, popular music. The implica-tions of free trade for the Canadians go well beyond the conventional commercial quarrels.

For that reason the final decision on this agreement has to be Canada's. Unfortunatelv. Prime Minister Brian Mulroney's authority has slipped badly over the past year, and as the debate among Canadians has become more vehement, their political leadership has grown more hesitant and equivocal. The free-trade agreement would strengthen both countries' economies, expanding markets and opportunities for each. But Americans are in a delicate position. They would be right to support wholebeartedly the idea of free trade — but they've got to be careful not to seem to be pushing it onto a Canada that is still sharply divided and troubled by it.

Zimbabwe's Parliament

It comes as no surprise that Zimbabwe, freed from the safeguards imposed at the granting of independence, has abolished the 30 parliamentary seats constitutionally reserved for whites. In truth, Zimbabwe's whites are little concerned about parliament or who is sitting there. What exercises white farmers and businessmen is what economists are urging the government to do. The economy is still primarily in white hands, and is likely to remain so in the forsecable future.

- The Daily Telegraph (London). Of the 59 countries in Africa, only 8 have some semblance of a multiparty democracy. in the last 40 years the continent has been racked by more than 70 coups and civil wars; the handful of states that retained a multiparty system have been among the few is-lands of peace on the continent. One-party government is not the remedy for Zimba-bwe's crippling foreign debt, its lack of foreign exchange, its growing unemployment. -The Times (London)

arises when a person does. Public health authorities also fear that a checkpoint at the hospital door might deter people from seeking needed treatment and drive that part of the population at risk underground. Thus the Centers for Disease Control have said that the best approach is to act as if every entering patient has AIDS and to adopt "universal blood and body-fluid precautions."

But hospitals will test - many already are - so now the CDC also has issued guidelines as to how this can properly be done. The rules are both sensible and humane. The CDC says the decision should be left to individual hospitals if not individual doctors. It says tests should be given only with the consent of the patient; the patient should be told of the results, and those found to be infected should be carefully counseled. It calls for "confidentiality safeguards . . . to limit knowledge of test results to those directly involved in the care of infected patients or as required by law." And, above all, it lays on hospitals that set up a testing program the burden of "assuring that identification of infected patients will not result in denial of needed care or provision of suboptimal care." A two-tier system of care in which to some extent AIDS patients might be written off is in ome ways the most horrible prospect of all.

AIDS, more than any disease in recent memory, confronts society not just with medical but with philosophical questions. The hardest of these have to do with the bulancing of the rights and needs of the sick against the rights and needs of the society at large. Because there is no cure and because of the ways it is mostly transmitted, AIDS has provoked an unusual share of panicky and demagogic responses. The CDC has calmly resisted both. It is walking a difficult

line, and so far is doing it well. -THE WASHINGTON POST.

OPINION

The Reaganites' Gauziness Has Put Them in a Bind

By Stephen S. Rosenfeld

WASHINGTON — The decline VV of the Reagan administration's cise wants two things from it; the Central America policy is best meabenefits if it succeeds, and the avoidsured by the fact that the United ance of blame if it fails. Mr. Reagan is States is having to deal with a greater doing less than he might to reap the

Sandinists to open their political sys-tem, which will be painful and divisive, and may sorely tempt them to cheat. Their credibility will be on the line. The United States is being called have to on to change not the character of its system but merely an aspect of its foreign policy — to test the possibility of softening, rather than ending, San-dinist rule. Distasteful as this may be for Reaganites, it is not be beyond a mature great power. The administration, however, or a part of it, is being a bit petulant and childish.

It began its new engagement with regional diplomacy by getting rid of Philip Habib, the U.S. diplomat best situated to help the president accomplish the purpose he now says he has embraced. He resigned, moreover, be-cause of pressure from the Republican right wing, pressure to which stand-tall Ronald Reagan submitted without

any evident recognition of the damage he was doing to his credibility. That leaves Mr. Reagan without the major personage he ideally would want to have at hand in order to pursue any serious initiative. Secretary of State George Shultz has a full plate, and, by failing to get the presi-dent to retain Mr. Habib, has lost an important battle. Mr. Shultz's Latin America aide. Elliott Abrams, lacks

the requisite standing.

Beyond personalities lies a question to which even the best-informed Lat-ins are seeking an answer. Queasy in the knowledge that their fate is at the mercy of American political whim, they ask whether the United States is now going to work with President Os-car Arias Sánchez of Costa Rica on the plan that the five Central American states accepted in Guatemala earlier this month, or whether the United States, by a too-rigid insistence on some of its own standards or simply by a subtle diminution of energy at

key passages, is going to undermine it. The Arias plan accepted in Guatemala improved on earlier drafts but is not complete and has many loopholes to be plugged, especially on the security side. Certainly, it is not self-implementing. And part of the implementa-tion will fall to government ministers who may be political rivals of their its and to bureaucrats or generals with their own agendas. To overcome the inevitable stickiness, there must be a sustained high-level thrust in Washington: leadership. Instead, Mr. Reagan takes Mr. Habib out of the lineap in a crucial inning, allows self-serving statements (by Vice President George Bush) and rearguard bat-tles (by Secretary of Defense Caspar Weinberger) from lieutenants so inclined, and gives the impression to the hemisphere that he may be sabotaging

Everyone taking part in this exercredibility problem than is Nicaragua. benefits; his course serves the Nicara-The Arias peace plan requires the guan interest in avoiding the blame. It also strengthens an unfortunate Latin tendency to take refuge from

have it pointed out to him that the next vote on contra aid, if it comes to that, will depend considerably on what impression his diplomacy has made on be a debate on who has been acting in good faith and who has not. A serious administration, even one convinced that the Arias plan is a sham, even one prepared to dump Central America on the Democrats or the next president, should be anticipating that debate.

Reaganites will not like: To improve prospects for renewed contra aid, Mr. Reagan has to work hard on a peace plan that removes the contras from the military arena and inserts them only uncertainly into the political arena. A pity that Reaganites did not think of that during the years of their gauziness when they were looking for a military way to make U.S. policy prevail.

The Washington Post.

President Ortega, there's a man out here with a cake and a bible.

Central America Called a Bluff, Turned a Corner

By Jorge Castaneda

with him, by not questioning his status or the way he reached power, the other Central American nations finally came around to considering the Nicaraguan revolution as an irreversible, although amendable, fact of life.

Second, and more concretely, the agreement is indeed onesided. Its demands of the Sandinists are either irrelevant or open-ended, difficult if not impossible to verify and exceedingly tough to enforce: national reconciliation, "best efforts for a cease-fire" and an end to Sandinist support for insurgents in El Salvador. But the concession by the United States is simple and precise: a halt in aid to the contras. If it does, the contras are through, and the White House dream of ousting Mr. Ortega before President Ronald Reagan leaves office is shattered. If aid continues, the United States appears to be the party responsible for the peace agreement's failure.

The agreement's broader impact is to formalize the most important diplomatic event to take place in Central America in recent years: Costa Rica's, and to a lesser extent Guatemala's, changing sides in the region's confrontations. Instead of tolerating anti-Sandinist rebels operating in its territory and opposing other peace initiatives, Costa Rica has emphasized its opposition to continued U.S. aid to the contras over any other aspect of the regional conflict. Mr. Reagan is left with Honduras and El Salvador as his only allies in Central America, outvoted and outmaneuvered by their three neighbors.

Finally, the agreement took the United States at its word, and called its bluff. By tacitly accepting the symmetry that the Reagan administration has always tried to establish between Nicaragua and El Salvador, between Salvador's insurgents and the contras, between U.S. aid to the latter

MEXICO CITY — Under almost any interpretation, the peace agreement signed by Costa Rica, Nicaragua, El Salvador, Honduras and Guatemala represents a major setback for U.S. policy in the region. First, by signing an agreement with President Daniel Ortega, by negonating with the unit of the peace plan underlined the weakest plank in the U.S. platform: The fact is that there is no such symmetry. The guerrillas in El Salvador can survive without Sandinist support, but the contract continue their struggle without U.S. aid.

Moreover, the Salvadoran rebels have been accepted by the government of President José Napoleón Duarte as valid negotiators — there have been two public meetings and a high number of private prisoner exchanges between the two sides since 1984 — with whom discussions are not only inevitable but desirable. But the Sandinists will not negotiate with the contras and cannot be forced to do so.

Until the meeting in Guatemalan, and as recently as the State Department's reaction to the Sandinists' latest request for direct talks between the United States and Nicaragua, the Reagan administration had stressed the need for a regional framework for any negotiation. It had maintained that Nicaragua had to reach an agreement with its neighbors. Now that Managua has done so, Mr. Reagan and his advisers have been obliged to back-track, making their support for the regional compact conditional on its compatibility with U.S. interest. Mr. Reagan's Central American policy is in shambles,

largely because no one wants to side with a loser. Nicaragua's neighbors have realized that, long after this president of the United States has retired, they still will have to cope with the Sandinists. They obviously believe they can get a better deal now than later. The United States, too, could obtain a more advantageous version of coexistance with the Sandinists now than after 1988. But it would mean accepting that they are in Managua to stay, and that seems to be more than Mr. Reagan can resign himself to do.

The writer, a graduate professor of political science at the National Autonomous University of Mexico, contributed this

It's a Big Deal, Especially So for Black Americans

By Hal Logan

P RINCETON, New Jersey — There was a remarkable story recently in the papers about a 44-year-old black man who had agreed to buy the international operations of one of the world's largest food products compa-

nies. Beatrice Foods, for \$985 million. The account raises tantalizing questions about the status and prospects of black people in a society in which one black man can raise almost a billion dollars to buy a company despite the legacy of racism and discrimination that keeps the larger

black community at the bottom of the scale of well-being in America. If Reginald Lewis's purchase of Beatrice's international businesses is consummated, a black man will own 64 companies that produce and market such familiar products as Tropicans orange juice. Wesson cooking oil and Hunt's tomato products in 31 countries around the world.

Mr. Lewis, a New York attorney, also would become the owner of what would be by far the largest black business in America. Beatrice's international operations accounted for \$2.5 billion in sales and \$147 million in profits last year; the next largest black company, Johnson Publications, with \$173.5 million in sales of Ebony and Jet magazines and other products, is less than one-fourteenth the size of Beatrice's overseas businesses.

It's a wonderful financial story, of how an investment of \$1 million three that black folks can get things done."

Schroeder Should Run, Hart Can't

By Tom Wicker

TEW YORK — "Run. Pat, run," they were chanting at last week's National Women's Political Caucus in Portland, Oregon, and that makes a lot of sense, maybe even for Represen-tative Pat Schroeder of Colorado. "Don't, Gary, don't." his best wishers were, meanwhile, imploring the former Democratic front-runner,

and that makes even more sense. for him and everyone else. Gary Hart, the former Colorado senator who quit the U.S. presidential race last spring after a national flap over his sex life, apparently was listen-ing. An aide said that Mr. Hart, from a vacation place in Ireland, had denied categorically that he would try to res-

urrect his candidacy later this year.
"Categorical" won't be "definitive"
until Mr. Hart himself swears off, and the sudden possibility of a recycled Hart candidacy may have been a trial balloon. If so, it didn't fly, though it enlivened the summer political dol-drums. The general reaction was summed up by Joe Grandmaison, the New Hampshire Democratic chairman, who has seen them come and go

through a good many elections.
"When I first heard it." Mr. Grandmaison said, "my first thought was that it was incredible. Then after having thought about it a while, my second was that it is still incredible."

For one thing, an attempted come-back by Mr. Hart would only revive the lurid headlines about his acquaintance with a Miami woman, speculation about other possible relaionships, and the shabby metamorphosing of reporters into private eyes. For another, he would be returning to overwhelming debts and legal entanglements from his 1984 campaign and his aborted 1988 cffort; they could cripple any remain-

ng chances he might have. Mr. Hart is a thoughtful man about issues," and more inclined to worry about substance than most candidates. If he wants to talk seriously about such things as Soviet-U.S. rela-tions, and be heard, he is well enough known to do so without being a presidential candidate. He might even be better able, in fact, than if he were running and therefore had to concern himself with delegate slates, local potentates, "momentum" and the like.

The other Coloradan, Ms. Schroeder, has a more difficult decision to make. She's reported to be having trouble raising the money she wants in order to underwrite a presidential campaign. Though she has a sound political record, it's not clear that she is better qualified or more likely to win than the seven declared Democratic candidates, even if they are all men. Who needs eight?", she and many others may be asking themselves. The 1984 campaign, moreover, with Geraldine Ferraro on the Democratic ticket, demonstrated that women are not monolithic in their political views. This year, a lot of Democratic women already are committed to other candi-dates, and Ms. Schroeder cannot expect. to win anything called "the women's vote" merely by announcing her candiple's accomplishments do not auto- much about nuclear weapons, farm pomatically translate for blacks into licy and the trade deficit as her male

There are at least two good reasons why Ms. Schroeder nevertheless lieve that staying in school, and should declare her candidacy. One is that if that's what she wants to do. there's no reason she shouldn't go for able lives. Inner city children are the brass ring, as might any man with more likely to hear and believe that a similar record. If she loses, she still will be better known, will have through the basketball court, the re- learned a lot about the country, imcording studio or even the drug trans-action than that it leads through Wall even have a shot at the vice presideneven have a shot at the vice presidency this time. Some of those seven men

are in the race for just such purposes. The other reason for Ms. Schroeder ple to take the exhortations of their to run is that her candidacy would be a further necessary step in making it We still live in a country where a ordinary and expectable for women to . ite high school graduate can ex-States. Until it becomes so, women college graduate, where whites will with legitimate aspirations and abili-burn down houses on their block or ties to lead are going to be looked pull their children out of public upon as little more than "women's. candidates" or, worse, as sure losers.

It's easy to forget how powerful was the taboo against Roman Catholic presidential candidates until John F. Kennedy was nominated and elected real success in this country within the in 1960. Shirley Chisholm, a black woman, began in 1976 the assault on Reginald Lewis is not the first example of the kind of rewards that can come to black Americans who buy into the assumptions of the mainstream. But he is one of the best example of the sound of the best example of the kind of rewards that can be a possible of the best example of the kind of rewards that can be a possible of the best example of the kind of rewards that can be a possible of the best example of the best examp ples. And his story can supply a commodity as precious and in as short supply as any other for blacks: hope.

cans might well put Jeane Kirkpatrick or Elizabeth Dole on their ticket next year. That's all the more reason next year. That's all the more reason for Ms. Schroeder to offer the Demo-

The New York Times.

IN OUR PAGES, 75 AND 50 YEARS AGO 1912: Sebastopol's Siege 1937: Nazi Party Rally

ODESSA - Martial law in the lesser degree, or, as it is sometimes termed, a state of semi-siege, has been established at Sebastopol [on Aug. 21] to apply over the naval station and the fleet. Recent investigations made by naval procurators in the Baltic and Black Sea have led to the numerous arrests of seamen and petry officers among the crews of the battleships. The ramifications of the revolutionary propaganda are, it appears, much more extensive and larming than was at first believed, WASHINGTON - The American State Department has been appealed to urgently by cable [on Aug. and talented 24-year-old Wellington where conditions are said to be growing steadily worse. The rebels are described as crazed with

LONDON - Prime Minister Neville Chamberlain's pet ambition of healing the wounds between Britain and Germany moved forward another step today [Aug. 24] when it became known that Sir Nevile Henderson, British Ambassador in Berlin, would break precedent by attending the forthcoming Nazi party rally at Nu-remberg. The French Ambassador. André François-Poncet, will also attend the rally, but the American Ambassador, Professor William E. Dodd, has excused himself on the ground that he will be away on leave. WELLINGTON - An attractive girl athlete is reported [on Aug. 24] to have changed her sex. She will leave for England shortly to undergo an operation, and will then seek permisdrink and are accused of perpe- sion to marry. The girl was a tennis champion at school and an athlete.

The second secon

Bork Still Wielded the Axe In Watergate's 'Massacre' By Anthony Lewis DOSTON — The nomination of nomination to the U.S. Court of A peals, he said he had dealt with them

preme Court raises questions that cannot be lightly decided — questions of importance and difficulty. Mr. Bork is a man of high intellect and distinguished experience in the law. But in his record, and in his outspoken

ABROAD AT HOME

views, there are matters that must concern the Senate and the public. The first is a matter of history: his role in the Watergate affair. It is not

history in a dusty sense. What he did then matters now, in fact and law. Everyone remembers that Mr. Bork dismissed Archibald Cox as Watergate special prosecutor. It was Saturday, Oct. 20, 1973: the Saturday night mas-

President Richard Nixon wanted Mr. Cox out because he had subpoensed White House tapes —the tapes that eventually sank Mr. Nixon. The attorney general and his deputy refused to carryout the president's order to fire Mr. Cox. Mr. Bork, the U.S. solicitor general, became acting attorney general and did so.

The crucial questions arose immediately afterward. Would the Office of Special Prosecutor continue? Would the subpoena for the tapes be pressed? Those were the questions that aroused the country and brought a firestorm of public outrage down on the White House. What was Mr. Bork's role on those questions? In 1982, at a hearing on his

BOSTON — The nomination of nomination to the U.S. Court of Appeals, he said he had dealt with them at once, the day after the massacre, at a meeting with Mr. Cox's deputy, Henry Ruth Jr., and others.

"I told them I wanted them to continue as before with their investigations and with their prosecutions," he said, "that they would have complete independence and that I would grand that indepen-dence, including their right to go to court to get the White House tapes or any Other evidence they wanted.

The record does not support that statement. On the next working day, Oct. 23, Mr. Bock issued an order retroactive to Oct. 21. It said: "This order abolishes the Office of Watergate Special Prosecution Force. The functions of that office revert to the criminal division." It was the criminal division of the Justice Department whose bungled inquiry led to the call for a special prosecutor in the first place.

Mr. Ruth's recollection of the meeting mentioned by Mr. Bork is in accord with on the Bork nomination, it said: the record. In a conversation last week, he said that Mr. Bork told him and a colleague to brief the head of the criminal division, Henry Petersen, who would make decisions on whether to prosecute.

antee our independence ... As to authority to pursue the investigation whether we would run into barriers if we without interference. He expressly ensubpoenaed this or that tape, nobody sured the Special Prosecutor's office knew the answer that evening. All that complete independence, as well as his was done after the firestorm."

his lawyers amazed the court by saying he well-known views, then and now. He

subpoena. On Oct. 26, Mr. Nixon said he would accept a new special prosecutor. Only after that, on Nov. 2, did Mr. Bork issue a new order "establishing the Office of Watergate Special Prosecution Force."

The Reagan White House, perhaps drawing on Mr. Bork's 1982 testimony, has credited him with saving the Water-gate investigation. In a brief last month

Cox; Bork acted to safeguard the Watergate investigation and its indepen-

C HICAGO — As the Year of the Lies begins to fade, the casualties — an entire U.S. public — are judging the effects of deceptions. Lying goes on all the time, but in 1987 people as different as the Reverend Jim Bakker, an evangelist: Gary Hart, a presidential candidate; Joe Niekro, a baseball pitcher, and Lieutenam Colonel Oliver North, a former National Security Council aide, made the living of lies or the

telling of lies a prime time topic. All lying creates victims as well as problems for victims. "Don't lie!" is

MEANWHILE

perhaps the first moral counsel a child receives - from parents, teachers, preachers and, they say, God. The lie breaks the pact of trust between humans. Jesus paid the power of the lie a great compliment when He called the devil "the father of lies."

It helps us sort out the problems lying creates if we deal with two classes, both common in 1987. First are the low-grade lies told for low causes. The second are high-risk lies told for Higher Causes, words we have to capitalize. It is compar atively easy to deal with the Bakker-Hart-Niekro type of low lies.

The high-risk, high-grade lies, on the

other hand, are the wrenching legacy of the year, particularly from the Iran-contra hearings. They raise fundamental issues of security and must. And a wise person will not trust anyone who finds it easy to resolve the issues they raise. Fawn Hall, Colonel North's secretary, condensed the case memorably when she defended the shredding of documents, an act that covered up his deception. She claimed that in a Higher Cause, "sometimes you have to go above the written law."

By Martin E. Marty

treated to open admissions of lying by think we all had to weigh in the balance the difference between lives and lies. It is not an easy thing to do."

find the issues posed by such lying an "easy thing." One set simply turns all moral questions over to idolized leaders. When leaders deceive, followers have to be confident about their heroes judg- games built on deception, games played ments. They cannot worry about the destruction caused by exposure, the weakening of the pact of trust in society. The Higher Cause dominates all.

The second set is more morally serious. These are the absolutists who say, "Never lie!" The philosopher Immanuel Kant posed the classic test. Your friend knocks on your door and asks you to shield him. A murderer is pursuing him and would kill him. So you take him in. The murderer then knocks and wants to know if your friend is in the house. You tell the truth, at the cost of your friend's life, because

truth-telling always has to be right.

Almost all of us allow for some Higher Cause possibility, and that is where things get sticky. In the Iran-contra affair, presidential aides pursuing the Higher Cause felt the need to deceive Congress, even though Congress was directly responsible to the public. This calculation also led to the deception of colleagues within the administration, some of whom, like President Reagan himself, had been charged

1987 - America celebrates the 200th

anniversary of the Constitution and the

democratic government thereby created.

Colonel North, whose actions, if they had

remained undiscovered, could have

by voters with still higher-level responsibilities in pursuit of noble causes.

Stickiness complicates; it does not dis-While citizens kept fingers crossed or solve moral seriousness. A classic argubrows furrowed in suspicion as Rear ment against absolutism was the case of Admiral John Poindexter forgot everyDietrich Bonhoeffer, the Christian theolothing that looked deceptive, they were gian and victim of Hitler. He knew the need to lie to the Nazis, in order to protect Colonel North himself. He claimed that lives and try to bring down the regime. "It lying does not come easy to me but I is only the cynic," he wrote while in prison, "who claims to speak the truth' at all times and in all places to all men in the same way," but who therefore "in fact, displays At two extremes, two sets of people do nothing but a lifeless image of the truth

The attempt to find a way through Higher Cause debates begins with the simple word "game." War and spying, for example, are dreadful and dead with their own despicable if necessary rules. The pact of trust among civilians, however, can at least theoretically continue. Had Colonel North and Admiral Poindexter deceived the enemy and not the president, Congress and the public, we would be less troubled.

Second, a climate of fanaticism breeds the lie for the Higher Cause. Considering the lonely and secretive Halls and Norths and Poindexters, one wishes there had been a friend who could have reached deep into the Puritan tradition for a stinging line. Oliver Cromwell said it: "I beseech you, in the bowels of Christ, think it possible you may be mistaken."

Finally, the public can raise the price against deceivers to force them to think through their Higher Causes.

Sissela Bok in her thoughtful book, "Lying," ponders what Plato called the high-minded" or "noble lie." Rulers in Plato's time and since have admitted to lying "for the public good." Some even claimed and claim that those who govern have a right to lie. Mrs. Bok, however, urges: Always think first of the perspec-tive of the deceived. Lies for the public good are most dangerous because the stakes are so high, the victims so many, the examples they offer so demoralizing.

Do Americans choose to live in a nation where elected officials, or their ap-1987 — Some Americans celebrate olonel North, whose actions, if they had emained undiscovered, could have can lie at the public expense? Mrs. Bok heant the end of democratic government.

Louis Brandeis, before he was appointed to the U.S. Supreme Court, said in 1915 that "control is exercised ... to an extraordinary degree by the existence of a great power whom people believe and usually have reason to believe, would be pleased or displeased with the adoption or rejection of a given course. Great power controls without issuing orders. Future presidents must instruct subordi-

nates that they have no right to break the law in anticipation of presidential wishes. CHARLES BRADY.

The "fallout" from Colonel North's television performance has had one positive effect. It has singled out those Americans, enchanted by Colonel North, that one could call "Ollies." An "Ollie" most likely cannot point to Iran or Nicaragua on the map. The epitome of the "Ollie"? Ronald Reagan.

NIKOS RAPTIS. Halandri, Greece.

Aside from an almost universal boredom in Europe over the Iran-contra affair. America's best and most loyal friends abroad feel unhappy about Americans behaving like political lemmings, as they have all too often in the past. Britain, without a similar history of washing its dirty linen in public, seems now to be indulging in the same sort of domestic, political masochism. Our media continue, ad nauseum, to seek to exploit the attempts of a former intelligence agent to publish his memoirs, in betraval of an oath of confidentiality he took when he joined the service.

Meanwhile, the Soviet Union pursues an arms control policy that is designed to cause a permanent rift in the Atlantic Alliance and, by holding out the bait of future German reunification, threatens Western European unity. And these most serious matters seem to be almost totally ignored. SIR FREDERIC BENNETT.

London. What amazes me is that people should be worried about Colonel North lying, Admiral Poindexter lying and President Reagan lying. Why be surprised about it? Those Americans who have tried to live up to their country's professed ideals of

equality, freedom and human rights -

men such Paul Robeson - have not

become national heroes, Instead they have been hounded into obscurity. The rich and powerful rule in the Unit-States, and are willing to go to any ends to stay in power. What they and the rest of the world need to see is that the "evil" they perceive, especially where the Sandinists are concerned, is nothing compared to the evil they are willing to perpe-trate to eliminate that so-called evil.

That we have in Britain a government and a prime minister who supports the Reagan administration and all that it stands for is to our shame.

P.A. MATHEWSON. Bridport, England.

ARTS/LEISURE

Author of 'Kramer' Tackles Middle Age

By Marjorie Williams

rgion Posi Service ONE of the most interesting things about Avery Corman is that he has never been divorced. Despite the abundant hints offered by his last three novels -"Kramer Versus Kramer," which was about fatherhood and divorce, "The Old Neighborhood," which was about roots, career and divorce, and his newest novel, "50," which is about midlife crisis and fatherhood and career and divorce -- Avery Corman has just celebrat-

ed his 20th wedding anniversary. "I once said that Judy and I will never get a divorce because we couldn't ever figure out who gets custody of the anxiety," said Corman, confirming another thing his distinctly New York type, his conversation redolent of a Bronx boyhood and found Manhattan poise, his look the salt-and-pepper flair of dapper middle age: the wry, hyper-educated face of the Upper East

Side psychologist.
Corman acknowledges that in most respects it is fair to call him an autobiographical novelist. He has set all of his books in his native city. has freely incorporated elements of his life and depicts himself as a man steeped in the issues he writes about: anxiety, guilt, money, mortality, sex, marriage, children. And

turning 50. "I mean," said the 51-year-old Corman, who started writing the book when he was 49, "I don't think you write a book called '50' and neglect to have it be some kind of summing up of how you're feel-

ing about age."
The Ted Kramer of male menopause is Doug Gardner. Divorced and in his late forties, Doug is a sports columnist who finds himself approaching 50 alone, unhappy and confused. His ex-wife has just remarried, to a fortyish denim magnate who dazzles Gardner's son and daughter with trips and toys and a terrible enthusiasm for stepfatherhood. The women he meets are either hysterically anxious to get married or far too young.

After years of being the bread-winner, Doug is suddenly faced not only with seeing another man outstrip him at it, but with the prospect of losing his own livelihood; the final irony is that Doug's ex- say that you cannot sit down at the by the second or third date she wife has begun earning real money for the first time. The novel's simple thrust is to test Doug's willingness to sell out under the combined provocations of money, loneliness

writing, with rueful seriousness, about concerns that have been largely ignored in popular culture since the era when men wore hats with their gray flannel suits: the professional and family lives of urban middle class men who are trying to muddle through in moral

While domestic life has been tackled in many books by and about women, Avery Corman is almost alone in the niche of the middle-brow male who writes amiable, intelligent, nongenre fiction for the masses.

"I think many of us in the culture we live in are directed by money more than we would like to admit. said Corman. "And there are some obvious symbols of that . . . It's like we're in this massive electronics showroom, you know, all of us walking around putting stuff in a cart, and then we get to stand in the lobby and say, 'Look at me, look at

me, look what I have in my cart."

Also permeating the book is some conviction that "Provider Atxiety" is a major element of a man's identity. At one point, toward the end of his marriage. Doug thinks bitterly of his wife's part-time career: "She's out there ex-pressing herself, and I'm stuck with the bill again."

Later, he remembers: "He would sometimes awaken in the night and go into the kitchen for juice and see his father, awake, hunched and exhausted at the kitchen table, bills scattered in front of him. Doug, reflecting on the events of the day. took a deep breath in his anxiety, trapped by money like his father before him, as if it were in the

Surely it's been some time since Corman felt this kind of despair? After his first novel, "Oh, God!," was published in 1971, there were lean years writing articles and edu-cational films. But paperback rights to "The Old Neighborhood" sold for \$1.45 million, of which Corman was entitled to at least half, and movie rights brought \$1 million. Paperback bidding for '50" will begin at \$200,000; movie by a generational avalanche. rights have been sold for what his

Corman also got some small part you were." of the action on the movie of "Kra-mer Versus Kramer," and Judy its the women's movement with

So, am I immune from that?" asked Corman rhetorically, when asked about money. "No, I am not. Does the fact that I am, as you point out, doing better . . . make it possible for me not to look at it? What I am looking at are the things that are within me and that I've seen in other people.

He added: "Also, I'm the son of people of the Depression. It just never goes away."

Corman's parents were divorced when he was 5, and he never got to know his father. "My parents were divorced when I was very small, and a lot of people who have looked for the key to why I've been writing about divorce have always looked at it from the parental standpoint when in fact I was a child of divorce, and that has made these issues "

It was, finally, a child who wrote Corman a letter saying, "'You wrote so well about that; were your parents divorced? And that really over two years, going between is the clue." Corman continued, apartments, coping with the sysand it's where I've come through tem, the transience, the oversights, the door on all this material and the articles of clothing and the why I have always had children in books suddenly needed that were these marriages" that he writes left in the other apartment. Braff the Zinger Shooter

By Mike Zwerin

NICE - Ruby Braff shoots what stand-up comedians call "zingers" at you. He has worked them in enough strip joints and at bar mitzvahs and weddings in Borscht Belt hotels to know the style by rote. Ask where he grew up, you get a blackout line: "How can I say I grew up somewhere? I'm only three feet tail."

Like Lenny Bruce and the rest of those jokers. Braff also shoots deletable expletives. His elegant, mellifluous trumpet playing is a fragile commodity in today's world and he protects himself behind ambiguous combativeness. Actually, he plays cornet, but it doesn't really matter I have both of those [deleted] horns. I always feel like Frankenstein with this moronic plumbing in front of me. I feel like I'm going to tip over from the weight of it. At least the cornet is short like me."

One thing he likes about the cornet is that he's about the only one still playing it. "If I start se other cornet players, I'll probably switch back to trumpet." he says. That's the way I am. Like I used to enjoy smoking pot but then I saw every [deleted] in captivity smoking and I figured it was time to look for something else. I'm still looking. Peaches maybe. Hey! How'd you like a succulent peach?"

Braff's style can be traced from though none of his many record-

play wrong. I've got about 40 em- grows in Brazil and I'd think, 'Jeez, bouchures and I never know which I just heard Ben Webster play the one I'm using. I can't sustain a note saxophone, what do I care what with any of them. I've only got like they grow in Brazil?"

Ruby Braff: An elegant, mellifluous trumpet.

half a lung from smoking so much poison. It's hard to play a wind instrument in that condition. Don't you love that expression? 'I have a condition. I manage to huff and puff, I can even get ferocious in my way, but the only people I could help would have to be in an advanced stage of - sickness. I hate trumpet players anyway."

Not growing up in Boston, he was fascinated by the tenor sax. It looked so neat with that curved beak and all those pearly keys. But his parents thought he was too small for the tenor so they bought Braff's style can be traced from him a trumpet, which he tried to Louis Armstrong and Bix Beidermake sound like a tenor. He becke through Bobby Hackett. At learned by playing along with the 60, he plays like a succulent peach, radio. At night, under the covers, he'd tune in softly and listen to air ings is on any sales chart. He shrugs shots with all those romantic it off. "I don't feel neglected or sounding names - Duke Ellingoverlooked or lost. I feel everybody ton, Jimmy Lunceford, Tommy Dorsey, from the Aragon Ball-He never took lessons and he room, the Cotton Club, the Pelham says nobody ever asked him to Heath Inn. In the morning, "To teach them. "The only thing I could pull my eyes open and go we school teach trumpet players is how to and somebody would ask me what

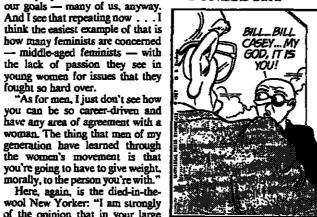

By the age of nine, he was working weekends for \$2 a night in clubs with "slick cats." He has been a leader since the age of 16. "I'm not good enough to work for somebody else," he explains: "If I had to blast out those written parts guys play backing me up I'd never work. The only person I ever worked for was Tony Bennett. What am I saying? He sang with me. He recorded 24 Rogers and Hart tunes with my

ager, the late Joe Glaser, called to In 1957, Louis Armstrong's mantime, Glaser was one of the most powerful figures in show business.
"But I don't want your band," he said. 'I want you to play with Jack Teagarden and Earl Hines."

Not one to be told what to do, Braff turned the job down and then barked: "You [deleted], you don't even deserve to know people like Tengarden and Hines." Nothing was ever proved, but it is said that Glaser sent out "the word" about Braff - in any case work came slowly for awhile.

In the '70s, the impresario George Wein began to feature Braff in festival all-star packages. He is in demand on the traditionloving jazz party and cruise circuit. But he says, "I don't live in the world of jazz musicians. They don't mean [deleted] to me. I belong to the same club that Judy Garland, Fred Astaire and Sophie Tucker belonged to. I hate what the average jazz musician stands for. He's some [deleted] who wears jeans and a sweatshirt and hides behind a horn. He doesn't even belong on a

stage. He's not a performer. "That's one thing about Miles Davisl. Miles has one of the best acts in show business right now. He's totally outrageous and he's really enjoying it all. He's even playing better trumpet. But don't tell him I said so. I don't want to make him too happy.

GENERAL NEWS

Family of **Paris Envoy**

By Julian Nundy

PARIS - Iran has agreed to allow the wife and baby son of the French consul in Iran to leave for home in the near future, the French Foreign Ministry said Monday.

The Iranian decision was the tors have linked the tactics and first movement in a crisis that be- evident political purpose to the gan nearly two months ago and resulted in the two countries breaking relations and detaining the dip-lomatic staffs in each other's capi-and funds for such attacks.

A ministry spokesman gave no further details of any discussions lization," said Facundo Suárez, the leading up to the decision to allow chief of state intelligence, in a re-Estelle Torri and her 9-week-old son, Charles, to leave, nor of their likely arrival date in France. The only direct scheduled fights between Tehran and Paris are operated by Iran Air on Tuesdays and

The child's father, Paul Torri, is at the center of a diplomatic dispute between the two countries that began on June 29 when a French magistrate summoned Wahid Gordji, officially registered as a translator at the Iranian Embassy in Paris without diplomatic rank for questioning into a series of terrorist bombings in Paris last year.

The Iranian authorities responded by issuing a summons for Mr. Torri, who has the rank of first secretary, to appear before an Is-Jamic tribunal on a range of charges that included espionage and drug trafficking, both capital

In Paris, about 40 Iranian Embassy staff members have been prevented from leaving their country's mission building since France broke relations on July 17. Eleven French nationals, including Mrs. Torri and her baby, who was born in Iran as the crisis unfolded, have been forced to remain in the French Embassy building.

Early this month, Hashemi Rafsanjani, the leader of the Iranian Mailis, the country's parliament. said in an interview with the West German newspaper Die Welt that Mr. Torri's wife and child could leave fran, but until last weekend French officials said there was no

progress on the issue. On Sunday, Foreign Minister Jean-Bernard Raimond repeated that France would make no concessions in its quarrel with Iran and that the summons to Mr. Gordji was not negotiable.

FASHION made of FERMANY It's high season for German fashion lovers as three major cities turn on the style to present a dazzling array of designers and clothing to suit all tastes. Pride of place must surely go to Berlin, currently celebrating its 750th birthday, but Munich seems ready to rewrite the record book and in Dusseldorf the '88 collections are ready and waiting. With 2,000 exhibitors at the Igedo and a further 2,500 at fashion shows around the city, Düsseldorf is expecting 60,000 buyers to visit the city September 6-9, no surprise given that a full third of Germany's impressive \$12 billion fashion industry goes to exports. On September 5-6 Designer Collection will provide a taste of things to come by showcasing the collections for spring and summer 1988. For the first time, an Italian collection —from Byblos — will receive its premiere outside Milan. On October 18-19, Düsseldorf Direkt and New Look Düsseldorf will show a selection of next summer's designs for cocktail and evening dress while offering buyers the chance to reorder all '87 and '88 favorites. Fashion Sensations in Munich perfume market (the Cerruti HE Munich Fashion fragrance will be introduced in Week/International Paris at a later date). Starting Fashion Fair (Mode-Sunday, the Trend, Leather and Woche-München) ranks as one Traditional Costumes (Folkof the largest in Europe. Last wear) Shows will be presented. The Caren Pfleger Collection of knitwear, ready-to-wear and cockrail dresses can be combined, mixed and matched for casual or evening wear.

"It is a cultural expression, a puzzle pur together from season to season. The garment must suit the personality. It has to be perfect and you have to feel good in it."

Caren Pfleger perfume and cosmetics, distributed by Premier Cosmetics, the German subsidiary of Sanofi Beaute of France, complete the picture.

Rediscovering the Dress HE Fink Group in Amsterdam Store in Curação in

Darmstadt is one of Europe's leading makers of women's clothing. Headed by the dynamic Lilo Fink, the company has become the leader in the upper mediumclass market for women's dresses. Its Fink Modelle line 20counts for an overwhelming share of the firm's sales. More than half of the Fink Modelle collection is exported to 36 countries, with the greater part going to France, Belgium, Britain and Switzerland. But the Fink brand name can also be found at Edward Chapman's in Vancouver, Canada, at Lane Crawford's in the center of Hong Kong and at the New

the Netherlands Antilles. In all the export markets, there are sales representatives and show-

Reaching out for new customers, Fink has expanded the Modelle line to include the latest, freshest dress styles. A pleasing, leminine style shows up in the long, close-fitting bodices and swinging skirts. There are blouses, the popular one- or two-piece sweater and polo-shirt dresses in comfortable knits and jersey. The elegant coats and shirt-dresses as well as the jumpers and blousons are ideal for city wear.

The weekend and travel collection includes one- and two-

New lines for Autumn by

piece sweater dresses, long blazers, blousons, skirts and shirts to mix and match.

For afternoon and social occasions, Fink uses glittery, flowing materials such as satin, crêpe and chiffon.

The styles favor the warm, natural colors of autumn, but dramatic, metallic hues and those perennial favorites black and white, navy blue, offwhite and bright red - are also much in evidence. The designs include stripes, checks, leaves and floral themes.

Fink also produces kniewear under the Yarell label, and the internationally successful readyto-wear line named after French designer Louis Feraud.

tralia and in Kuwait.

In 1969 an American, Bob Gore, stretched polytetrafluoroethene to produce a new kind of microporous membrane. Subsequently developed by Du Pont under the trade name Teflon, it is also the basis of Gore-Tex material. Widely used in the clothing industry, this water-proof, windproof material allows the body to breathe.

Also in the 1960s, polyacrylonitrile was processed into Dolan fibers, the wool-like synthetics used for knitwear, carpets and other textiles. Subsequent research by Hoechst uncovered Dolanit 10, an important new addition to the range of industrial fibers.

Last year the Frankfurt Trade Fair consolidated its position as the world's leading

YNTHETIC textiles and venue for textile trade fairs by fiber-reinforced materi- launching Techtextil. This including experts from research laboratories, academic scientists, industrial and textile manufacturers, management consultants and executives. There were over 300 exhibitors, the majority from abroad.

> Techtextil also drew capacity audiences to a series of seminars on new materials, their applications and potential for industry, georestiles and enviconmental protection.

In the case of georextiles, environmental protection and Third World agriculture were the main areas of interest. The industrial field focused on the ever-increasing demand for new materials, especially fiber-based

Techtexil showed how diverse the field has become, with applications from aerospace to filters for "clean rooms" and even artificial limbs that mold to the body. Many were presented for the first time, the next date to watch will be June 1989 when Techtexil returns.

Fashions may change but the style remains timeless. Visitors to the Berlin Durchreise can expect to experience the city chic September 20-22 as the Berliners celebrate the 150th anniversary of their most famous fashion event. The real trend spotters will be arriving even earlier to make sure they catch the Offline Fashion Fair that precedes it.

ERLIN is a place to experiment. "The young relents find positions with the established firms or they work on their own," said Kurt Geisler, managing director, Berliner Mode Messe (Berlin Fashion Fair). Some of what they create is crazy and exaggerated, but they are full of courage and flair."

Three years 2go, ten of these young designers formed the Club of the Berlin Fashion Avant Garde. "One made a dress from a mail bag and another built records into a suit - you could choose what music you wanted on the records," Geisler recalled.

Second only to New York in terms of output, the city's clothing industry stretches from Kurfürtstendamm to Kreuzberg. This year's sales are expected to exceed \$500 million (1 billion deutsche marks) and 40 percent of them are destined for the world market.

Wrapping up evening wear for 87/88 with Jürgen Felser.

The couple produce the Jürgen Felser Collections, an exclusive designer line, 25 well 25 L'Estelle, a high-quality, readyto-wear brand for sophisticated

"Our style is sporty-elegant," he explained. "For certain designs, we have the materials made to our specifications. However, I must stress that

elegance is in the cut and careful workmanship.

"For this autumn, we have worked with wool cashmere as well as with pure cashmere. We have also used a lot of suede, because the trend is clearly to suede, which can be used for feminine styling. The whole trend is toward showing the woman's figure, but the dresses are not clinging. Yet they do accent the figure."

In keeping with the new leggy look, straight skirts are shorter - although not the more fully cut ones. "Women's fashion shows a trend toward flared and pleated skirts," he

The big colors for this winter are tobacco brown and olive green. For next summer, Jürgen and Claudia Felser are using brown with melba, olive, coral, sea green and the eternally fresh navy blue with white.

In the Jürgen Felser Collection for autumn/winter, a long, cut-for-comfort suede coat (with or without fur trim) tops 2 tapered jacket and long flared or pleated skirt or, alternately, a short, body-skimming skirt with a silk blouse in simple Tshirt style or with large bows and stand-up collar. Complementary casual knits provide a "total look." Or one may mix and march knit coordinates such as pullovers, cardigans, skirts and pants in sporty-rustic or elegant (with embroidered pearls) styles.

The carefree mood is also found in cockrail dresses. Red, green and black are the dominant colors. Wool-jersey dresses are enlivened with whimsical prints, embroidered cloqué, voile and printed chiffon.

Elegance Personified

EYNSHAM, England — The recent discoveries

of materials that lose all resistance to electricity at

warmer temperatures than previously thought pos-

Not surprisingly, they have also caused a stir in a modest office building on the outskirts of this village west of Oxford that recently became the

headquarters of Oxford Instruments Group PLC.

Oxford is the world leader in the commercial

application of what are now called conventional

superconductors, metals that lose their resistance to electricity when cooled in liquid helium baths to

less than 10 degrees Kelvin (about minus 263

Over the last 25 years, the company has used a curious characteristic of superconductors — the

strong magnetic fields they create - to develop a

variety of products. It is best known for supermag-

nets that go into instruments made by other com-panies to analyze everything from plastics to tu-

mors. The instruments measure the energy emitted

by the protons in atoms after they have been

subjected to magnetic fields, taking advantage of

the fact that different types of atoms emit different

degrees centigrade).

levels of energy.

INTERNATIONAL STOCK MARKETS

Prices Retreat in Manila, Leaving Investors Relieved

By PATRICK L. SMITH International Herald Tribune

ANILA — Even by East Asia's high standards, the Philippines' two stock markets have had an extraordinary run this summer. Prices began to rise in

next two months. By August, back-office congestion forced the exchanges to close on Fridays, reflecting a ninefold increase in

daily volume.

"There was obviously a tremendous amount of fresh money coming in," said Irving I. Ackerman, a longtime local broker and Makati Stock Exchange, the smaller of the two Manila markets, the other being the Manila Stock Exchange. Activity was fren-zied. After a while, it was

The hot air of speculation is now seeping out of the

The often-speculative frenzy is over now, to the relief of market. many investors and analysts, if not of brokers. The markets,

4

which list the same stocks, are now off more than 20 percent from peaks of almost 1,300 on their near-parallel indexes in early August, and volume has come down even more dramatically.

On Monday, the Manila Composite Index ended at 1,001.15, a plunge of 69.42 points, or 7 percent, from Thursday's close. Combined volume was 236.4 million pesos (\$11.5 million) compared with 350 million pesos or more at the height of the recent

binge.

Reflecting the fragility of current sentiment, analysts attributed Monday's dramatic fall to a report over the weekend that Engineering Equipment Inc., a second-line issue, had accumulated losses of some 200 million pesos over the past five years. Engineering Equipment, a subsidiary of Benguet Corp., the blue-chip mining conglomerate, reported earnings last year of

about 20 million pesos. On Monday, Benguet said EEI had overstated reported income by about 231 million pesos for the 1982-86 period, by understating losses in its Saudi Arabian operations. Benguet, which owns 68 percent of EEI, said that it was delaying its announcement of consolidated second-quarter results and had ordered a special

Many brokers trace the market's advance, which brought the market up 550 percent since Corazon C. Aquino assumed the presidency 18 months ago, to the increasing stability of the government, signified most recently by the election of a new

ORE SPECIFICALLY, the market appears to have responded quickly to the central bank's favorable firstquarter report on the economy, which was issued on June 1. The report, which put year-on-year growth at 5.5 percent, provided the most substantial evidence to date that a recovery is

But there was also a sizable speculative element in the latest boom, most analysts say, which reflected capital inflows from Hong Kong, Taiwan and elsewhere in the region.

In threatening an investigation of recent trading activity, the Aquino administration has expressed concern that capital returning from abroad may include funds belonging to those associated with the former president, Ferdinand E. Marcos.

There now seem to be as many explanations of the market's downturn as there are share analysts. Many observers point to an apparent decline in public security, a recently announced rise in local oil prices and deepening concern about inflation, which is fising quickly after standing near zero earlier this year.

Without discounting such factors, analysts add that the ex-

changes simply needed a period of substantial consolidation. In See MANILA, Page 13

Spending In U.S. Up 0.9%

Income in July Rose Only 0.4%

Compiled by Our Staff From Dispatches WASHINGTON -- Americans' sonal spending jumped 0.9 percent in July for the second consecutive month, while personal income rose only 0.4 percent, the Com-merce Department said Monday. Personal spending for June was

revised upward from an original estimate of 0.7 percent. The 0.9 percent figures in June and July were the strongest since a 2.3 percent surge in February and are likely to be seen by economists as a sign that Americans still want

to buy more goods.

The figures also could indicate that people believe the economy will stay strong enough to keep them employed, and thus capable of earning money to pay for their

The 0.4 percent rise in personal incomes works out to a seasonally adjusted annual rate of \$3.74 tril-

lion, the government said. The July income figure was the best since April and follows revised 0.3 percent increases in May and June. The Commerce Department had originally reported those gains at 0.5 percent.

Disposable, or after-tax, income rose \$11.9 billion, or 0.4 percent, to \$3.18 trillion in July after declining percent in June, the department said. The June figure was originally reported as 0.1 percent.

Wages and salaries increased \$5.4 billion to an annual rate of \$2.21 trillion in July.

Gains in service industries pro vided much of the increased pay-roll, while most of the rest of the \$14.3 billion rise in personal income came from increased Social Security benefits, income on interest-bearing deposits and in subsidy avments to farmers.

Purchases of durable goods, items expected to last three years or more, increased at a rate of \$5.9 billion in July, down from a \$9.8 billion rise in June.

Purchases of nondurable goods increased at a rate of \$5.9 billion, up from a \$3.4 billion increase in e previous month.

Americans reserved about 2.8 percent of their disposable income for savings in July, compared with now for two reasons: A somewhat percent in June. Farm income rose \$100 million in July after increasing \$2.5 billion

U.S. Sets Sale Of Loans to Private Investors

NEW YORK - An experimental U.S. government plan to sell existing loans made by its agencies to private investors will reach Iruition this week, Shearson Lehman Brothers Inc., the investment bank, said Monday.

Shearson said it will arrange a novel offering on the New York capital market of \$1.75 billion of securities backed by loans from the Farmers Home Administration, a federal agency for rural develop-

"This offering is significant be-cause it is the first sale of federal government loans," a Shearson of-ficial said. "This is a pilot program. The loans will be sold as taxable obligations to investors," he added. There will be no federal guarantees or recourse to the govern-

ment. The administration's plan surfaced early last year during budget discussions involving the portfolio of government loans, which then totaled \$245 billion. Initial annual sales of \$2 to \$3 billion were suggested, with the amount later growing to help reduce the government's budget desicit and meet President Ronald Reagan's goal of reducing

the size of the federal government. The bonds will be issued by a private, special-purpose entity called the Community Program Loan Trust, which has purchased the loans to use as collateral, Shearson officials said.

"More than 50 percent of the loans were for water projects for municipalities," an officer of the firm said, noting that the bonds will be significantly different from many other types of asset-backed

bonds. Many other offerings, he

menace. Consumer prices were ris-

ing at 4.4 percent annually from

May to July, compared with 5.5 per-

cent from February to April. Corpo-

rate profits are up, and the budget

deficit at least for this fiscal year is

said, have a highly uncertain final maturity, because of the risk that the original borrowers will repay the loans early.

"The community program loans will not, as a rule, have such risk,"

Shearson said a number of institutional investors told the securities firm that they would be willing to buy the collateralized bonds. The offering will be split into five portions, with estimated average

maturities ranging from about 3.4 years to more than 30 years. Shearson said that the bonds would be priced at a discount below their face value of 100 percent, so that investors will get a capital

gain at redemption to make up for the below-market rate of interest determined by the original loans.

Oil Plunges **Output Fears**

NICOSIA — Oil prices plunged Monday as the Middle East Economic Survey reported that OPEC's out for August is expected to reach 19.7 million barrels a day, about 3 million above its official ceiling.

On the New York Mercantile Exchange, West Texas Intermediate, the benchmark U.S. crude oil for immediate delivery, dropped 30 cents to \$18.60 a barrel after sinking as low \$18.15 during the session. It was the lowest close since April 29.

Benchmark crude prices have fall-en by \$2 to \$3 a barrel in the past three weeks following reports of overproduction by OPEC members. Earlier in London, oil from Britain's North Sea Brent field fell 45

cents to \$17.50 a barrel for October loading its lowest level since April. On June 27, the Organization of Petroleum Exporting Countries

agreed to limit production to 16.6 million barrels a day for the second 'It's a combination of factors that half of this year to defend its \$18-afused to sign the accord. MEES, an authoritative oil jour

nal, said the bulk of OPEC's overproduction is coming from Gulf members, including Iraq and Iran, which have been at war since 1980. But a number of other OPEC

members, such as Nigeria and Libya, also must share the blame, the Several OPEC states, including

Norfolk Southern Is Offering An Early Retirement Program

NORFOLK, Virginia — Norfolk Southern Corp. said Friday it is offering an early retir-ment program for trainment and switchmen with a one-time special compensation package worth a total of around \$400 million.

The company said that up to 10,000 employees would be eligible under the program, which would be eligible under the program, which would only apply to some parts of the system. Norfolk Southern also said it would have the right to refuse applications. The company said that successful applicants would receive \$40,000 in cash. Those over 55 by Sept. 30, would also receive certain medical care coverage and a \$10,000 death benefit.

Baden to Sell 4% Dornier Stake

STUTTGART - The West German state of Baden Württemberg said Monday that it plans to sell its 4 percent stake in Dornier GmbH, the aerospace and medical group 66 percent-owned by Daimler Benz AG.

A state spokesman said the sale would take place before the end of the year. He gave no further details. A Daimler spokesman declined to comment Daimler officials have expressed an interest in

Toyota, Nissan Exports Fell in July

TOKYO — Toyota Motor Corp.'s vehicle exports fell 7.7 percent in July from the previous year, the company said Monday, while Nissan Motor Co. said its exports fell by 9 percent last month.

Toyota said its vehicle exports fell to 163,210 units in July, but were above June's total of 141,268. Nissan said its July exports fell to 109.628 units, compared with 105,633 in June.

Toyota Plans Luxury Line for U.S.

Renter TORRANCE, California - Toyota Motor Corp.'s U.S. unit said Monday that it will introcorp, s.c.s. unit said Monday that it will intro-duce a new luxury car line, the Lexus, in Ameri-ca in 1989. The two Lexus models will be built in Japan and offered under a separate franchise of fewer than 100 dealers, with sales expected to reach 30,000 in 1989. **U.S. Futures**

Eurotunnel Reported : Set to Announce Lean

Agence France Presse

LONDON — Eurotunnel, the rench-British Channel tunnel consortium, is expected to in-nounce agreement Tuesday on a 25 oillion (\$8 billion) loan from 50 oanks, in the world's biggest funding operation by the private sector, sources in London said Monday. Eurotunnel refused to confirm the report, but its French co-chairman, Andre Benard, said on Friday, that the agreement would be reached "next week." The long, agreement reportedly hinges on the success of a Eurotunnal issue of £750 million planned for later in the year, of which about £600 million pounds will be offered to histitutional and private investors in

Honda's Profit Slipped 25.5% in First 4 Months

Compiled by Our Staff From Dispatches of 1986, adjusted mathematically citing the impact of the strong year, said Monday that its consolidated net income fell 25.5 percent, to 28.4 the Japanese year against the U.S. billion yen (\$193 million), in the dollar." four months ended June 30.

said that the drop came despite a 9.1 percent increase in consolidated net sales, to 1.023 trillion yen, compared with a hypothetical year-earflier period. Honda attributed this improvement to stronger car sales in the U.S. and European markets.

Honda said it was giving a fourmonth rather than three-month calculation because of a change in its fiscal year approved by shareholders in May. Starting next year, the fiscal year will begin on April 1 rather than March 1.

pared with the March-May period

TOKYO — Honda Motor Co., to reflect four months, Honda said.

Car sales in the United States, Japan's third-biggest automaker Europe and Japan rose to 697 billion yen, it said, without specifying the previous figure.

Motorcycle revenue fell 10.8 per-cent to 134.7 billion yen due to sluggish sales in Japan and in the United States, although there were signs of recovery in Europe, Honda

Profit per American or European share, each equivalent to 10 shares of Honda common stock, amounted to 279 yen for the four months, down 28.3 percent.

For all of last year, Honda's con-Because of the change, four solidated net profit was 83.7 billion months ended June 30 were comyear before. (UPI, AFP, Reuters)

Bell Resources Profit Up 63% in Half

PERTH, Australia - Robert Holmes à Court's Bell Resources Ltd. "said Monday that net profit jumped 63 percent to 160 million Australian dollars (\$114 million) in the first half ended June 30, from 98.1 million 2

That included a net contribution of 59.7 million dollars from its stake of about 27 percent in Broken Hill Pty., up from 23.4 million dollars a year earlier. Net profit before the BHP contribution amounted to 100.3

million dollars, against 74.7 million a year earlier.

Mr. Holmes à Court, the chairman of Bell, an investment company, made several attempts to take over BHP, a multinational resource company, last August. In September, Mr. Holmes à Court was given a seat on BHP's board and agreed not to increase his stake in BHP. Bell said first-half per-share earnings in the half amounted to 36.5 cents, compared with 42.5 cents in the year-earlier period.

Hanson Has Morgan Stake

LONDON — Morgan Grenfell Group PLC said Monday that Hanson Trust PLC, the industrial conglomerate, had acquired a 3.3 percent stake in the merchant bank.

A Hanson spokesman said the group had bought the shares as an investment, but had no intentions of mounting a takeover bid.

Market sources said that Hanson acquired its stake for arbitrage purposes in anticipation that someone would soon make an offer for the merchant bank. These sources said that Morgan Grenfell has become a prime takeover target, along with several other British merchant banks that are facing stiff competition.

Morgan Grenfell also said Monday that the London financier Jacob Rothschild had bought a 1 percent stake. Robert Holmes à Court and Alan Bond, the Australian entrepreneurs, have recently bought 5.2 percent and 2 percent of the company.

Boeing Delays 7J7, Citing Scant Customer Interest

Monday that it plans to delay development of its 717 propfan jet because of a low level of interest by

Initial deliveries of the 150-seat aircraft had been set for mid-1992, but it now appears that the date will be pushed back to the first quarter of 1993, a company spokesman said. Boeing had originally planned to have the aircraft ready

Boeing's plane will use a fuelefficient engine that combines characteristics of both the jet and

McDonnell Douglas Corp. hopes to launch its version of a propfan plane, the MD-92, in 1991. Donald Hanson, spokesman at build the 717, and has a Douglas Aircraft, the Mcdonnell interest in the venture.

SEATTLE - Boeing Co. said jets, said Monday that his company would begin developing the plane only when it had firm orders.

> Mr. Hanson said Douglas wants to begin offering the new airplane to customers later this year. But he said that the company's board has not set a minimum number of orders necessary for development.

Boeing's shares rose \$1.375 to close at \$53.25 on the New York Stock Exchange on Monday, while McDonnell Douglas's fell 12.5 cents to \$78.875.

A consortium of Japanese participants — Mitsubishi Heavy Industries Ltd., Kawasaki Heavy Industries Ltd. and Fuji Heavy Industries Ltd. - is helping Boeing build the 737, and has a 25 percent

Japan's Thirst for Mineral Water Turns Imports Into a Flood

TOKYO - Japan's thirst for [oreign mineral] of the Japan Mineral Water Association. water has turned a trickle of imports into a torrent in little more than a year.

Increased consumerism, rising awareness about health and the poor quality of urban tap water are behind the flood, with the major customers apparently city dwellers in their 30s

Flat and carbonated mineral water imports reached 1.71 million liters (about 450,000 gallons) in the first half of 1987, surpassing the total for all of 1986 of 1.18 million liters, according to Finance Ministry figures.

French water led the way, with 1.63 million liters imported in the first half, up 20-fold from 84,000 a year earlier.

Pasteurization requires the use of class bottles, instead of the cheaper plastic now commonly used.

Total imports should rise to 2.33 million liters in 1987, up 98 percent from 1986, and more foreign brands are likely to enter the market, Mr. Yamamoto said.

Even so, Japanese mineral water consumption remains low by Western standards. Per capita consumption in 1983, the latest year for which official figures are available, was 0.75 liters, compared with 15 liters in the United States and 70 in France, Mr. Yamamoto said.

But total consumption in Japan is expected 84,000 a year earlier.

Imports began rising in May 1986, when the Ministry of Health and Welfare abolished rules requiring bottled water to be carbonated or would hold 64 percent of the import market, at the youth market, would sell 3.6 million bottles in that country.

pasteurized, said Yoshio Yamamoto, a director but other industry sources disagreed, saying his forecasts were too conservative. A spokesman for Marubeni Corp.'s Marubeni Food Corp. estimated that imports in 1987

would top 3 million liters. The most popular import is Vittel, bottled by France's Société Générale des Eaux Minérales de Vittel SA and marketed by Marubeni. The Marubeni spokesman predicted Vittel would sell 1.2 million 1.5-liter bottles in 1987.

Whiskey maker Suntory Ltd., which markets Volvic and Perrier water, predicts that it will sell 600,000 1.5-liter bottles of Volvic this year. Suntory began selling Volvic last September through Perrier Japon Ltd., 2 Japanese unit of

Source Perrier SA of France. Suntory, which plans a new campaign aimed at the youth market, predicted that Perrier, Japan's best-selling carbonated mineral water, would sell 3.6 million to 4.32 million 200cc

PHILADELPHIA - Smith-Kline Beckman Corp. said Monday that it has agreed to buy International Hydron Corp. for at least \$115 million in a deal that moves the U.S. pharmaceutical giant into

contact lens manufacturing. SmithKline will acquire the company from National Patent Devel- \$9.625 on the American Stock Ex-Corp., which owns about change 90 percent of IHC's common stock, with the total price including other chase will not compensate for the

considerations. Holders of the 11.26 million no shares outstanding in IHC will receive \$10.35 a share.

and Drug Administration's decision on Friday to allow Bolar Phar- vision totaled \$433 million in 1986. maceutical Co. to make a generic up 38 percent from 1985.

In U.S. for \$115 Million version of SmithKline's heart and hyperiension drug, Dyazide.
The FDA's announcement

pushed SmithKline's stock down \$5.75 a share to close at \$65.75 on the New York Stock Exchange on Friday. The shares closed 25 cents lower at \$65.50 on Monday. IHC closed down 37.50 cents at

Dollar Closes Mixed as Intervention Fears Rise

Compiled by Our Staff From Dispatches NEW YORK - The dollar losed mixed on Monday as contern over central bank intervention In New York, the dollar slipped

to 141.90 yen, down from Friday's close of 142.15, but rose to 1.8175 Deutsche marks, against 1.8150 or Friday, and to 6.0780 French francs from 6.0718.

The U.S currency was stronger against the British pound, which losed at \$1.6320, down from El 6325, but fell to 1.4975 Swiss francs from 1.5025.

Overnight in Tokyo, the dollar plunged to 141.70 yen from the previous close of 143.75.

Dealers in Tokyo said that the Bank of Japan had intervened to stem the dollar's decline. Estimates of the bank's purchases ranged from \$200 million to \$500 million. A senior Finance Ministry official told the Kyoto news service **London Dollar Rates**

that Japanese monetary officials had been talking with U.S. officials for a week on the possibility of coordinated intervention if the dollar's slide continued.

Source : Reuters

There is a feeling in the market that the dollar will stabilize at these levels," said Earl Johnson of Harris Bank in Chicago, "I'm not sure the market is ready to test 140" against the yen.

As for the reported talks between Japanese and U.S. officials, Mr. Johnson said there may be an effort to "stabilize the dollar through

lion U.S. merchandise trade delicit in June and the 2.3 percent growth rate in the second quarter "certainly don't argue for a stronger dollar. But we might hold at these levels until we see the next trade figure."

And if the July trade report, to be released in September, shows a deficit in the vicinity of \$16 billion. Mr. Johnson said, the dollar would come under serious selling pressure.

Earlier in London, the dollar finished lower against most major cur-

The dollar closed at 1.8167 DM. unchanged from Friday.

However, it was lower against the yen, closing at 142.35, against 142.75 on Friday. It also closed at 6.0775 French francs, down from 6.0800 on Friday, and at 1.4965 Swiss francs, down from 1.5040. The dollar was also lower against the British pound, which closed at

Mr. Johnson said the \$15.7 bil- \$1.6305, against \$1.6300 on Friday. . The dollar had edged down to lows of 141.80 yen and 1.8125 DM during the afternoon in Europe as the market tested central banks determination to support the dol-

> There was no sign of intervention in Europe but the market lacked the momentum to push the dollar further down, dealers said.

> The dollar has shed about 5 percent of its value against the yen and 4 percent against the mark since Aug. 14, when the United States announced the June trade figures. The U.S. currency is close to levels seen this spring when central

> banks spent billions to stabilize its value, in line with the so-called Louvre Accord of Feb. 22. Earlier in Europe, the dollar was fixed in Frankfurt at 1.8238 DM,

down from 1.8283 on Friday, and in Paris at 6.0945 French francs, down from 6.1145. (UPI, Reuters)

Yields Increase At U.S. Auction Of Treasury Bills

WASHINGTON - The U.S. Treasury said Monday that its auction of three-month bills produced an average yield of 6.12 percent, above last week's average of 5.97 percent. The average on the six-month

bills rose to 6.16 percent from 6.12 percent last week. The three-month yield was the highest since 6.14 percent on July 30. The yield for the sixmonth bills was the highest

since 6.18 percent on July 31.

The Treasury received \$26.2 hillion in bids for the threemonth bills, of which it accepted \$6.6 billion. It accepted the same amount of six-month bills from \$25.8 billion in bids.

OXFORD: Superconductors a Magnet for Markets

(Continued from first finance page) more circuits into them - than is possible with today's lithographic

IBM has turned to Oxford because extremely sophisticated "supermagnets" are needed to bend the beam and hold it into an oval circuit small enough to fit into a reasonably sized semiconductor production facility.

"This is substantially bigger than any project we have ever done," said John Pilcher, managing director of the Oxford subsidiary. Oxford Instruments Ltd., that is overseeing the three-year effort.

Oxford is being aided by a \$1.5 million interest-free loan from the British government, which is eager to give the company a leg up in its race with German and Japanese groups that are also developing compact synchrotrons.

Government scientists at the Daresbury Laboratory in Warrington. England. provided crucial advice on the shape and gradations of the magnetic field the synchrotron would need.

"Accelerator physicists are rare animals that mainly live in govern-ment labs," said Martin Wilson, the project manager. "We can make it, but we needed help from people who could tell us what to

Fortunately for Oxford, the synchrotron project has blossomed just as growth in the company's raditional image-analysis business faltered.

Reflecting investor disappoint-ment with Oxford's profit for the past financial year, Oxford's share price has fallen from 413 pence six months ago to 325 pence on Mon-

day. Magnet-based image analysis is known as nuclear magnetic resonance, or NMR, in the analytical field and magnetic resonance imag-ing, or MRI, in medical diagnos-

Oxford's MRI unit sales were the main growth engine in the early 1980s. But major customers such as

Martin Wilson, left, and John Pilcher, of Oxford Instruments.

Siemens AG of West Germany are ble devices that monitor heart, hospitals that can afford the devices now have them.

The main problem, Mr. Williams said, is that the instrument manufacturers who are Oxford's customers are eager to recoup their heavy investment in MRI and NMR systems and are reluctant to cut profit margins in order to reduce prices to guys." a level that might attract a broader range of hospitals and laboratories.

MRI systems cost from \$1.5 million to several times that, with magpercent of the cost.

"The market needs someone to cut the MRI system price below the \$1 million level," Mr. Williams said. The company's strategy to stimulate sales as it awaits a price break is to broaden its product line by developing magnets that are more powerful, more compact or better shielded so they can be used in less controlled environments.

In addition, the company is developing businesses to shield it from the downturn in its medical

making more of their own magnets brain and stomach activity and deequipment that uses electrical and magnetic fields to control gases from which materials are deposited onto semiconductors.

> moment is a \$100 million market." Mr. Williams said. "A SIO billion market attracts too many big

M. Frost, the blunt-speaking American whom Oxford hired to build its patient-monitoring businets accounting for 15 percent to 40 ness, see such views as unduly conservative.

"Our company is still in many ways a hometown company that's reluctant to be in the big leagues, Mr. Frost said.

However, Mr. Williams, whom Mr. Frost described as "a harder driver than his predecessors," does not plan to let anyone take Oxford's place on top of the superconductivity heap without a fight.

devices. It markets patient monitoring equipment, including portatived," Mr. Williams said.

DOLLAR: A Restrained Response Arab, U.S. Banks Try Swapping Debt

by any significant reduction in im-

The reason is that Japanese, Gerwho have made heavy commitments to penetrate the United States, are tenaciously holding on to market share, even as the currency changes dictate they should be raising prices to avoid selling at a loss.

Although import prices have risen 14.5 percent since June 1986, according to the Bureau of Labor Statistics, Barry N. Bosworth, a senior economist in the Carter administration and now a senior fellow at the Brookings Institution, said that, at current exchange rates, the prices still have at least another 20 percent

repayment problems on the Saudi loans, now totaling \$937 million. With tension in the Gulf increasing over the past exposure in the tense Gulf region, are trying to sell troublesome Saudi Arabian corporate loans to Arab few months, some U.S. banks have also seen the swaps

as a way to slim down their Gulf operations. Although the discount pricing of Saudi corporate

For their part, Arab banks, with an exposure to Latin America estimated at 54 billion, often find it difficult to follow the region's complex debt resche-

dulings, with negotiations usually held in New York. The Saudi government itself has avoided incurring sovereign debt, preferring to pay for arms and develing Corp. BSC and Gulf International Bank BSC, have

U.S. banks jumped into Saudi Arabian corporate might be very happy to offload that exposure and take

GEORGE WASHINGTON: The Making of an American Symbol

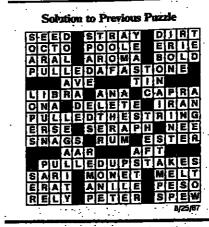

By Barry Schwartz. 250 pages. Illustrated \$22.50. The Free Press, 866 Third Avenue, New York, N. Y. 10022.

Reviewed by John Gross

T might seem hard to find anything very new to say about George Washington, but Barry Schwartz has hit on a relatively novel approach, and one that yields some rewarding results. "George Washington: The Making of an American Symbol" is a study of the Washington cult —of how and why a particular set of national sentiments came to cluster around the image of Washington, and what they reveal both about the man and about the political culture in which he rose to pre-eminence.

Schwartz starts with the simple question of supply and demand. The emerging nation needed a flesh-and-blood focus for its aspirations, and anyone who had been appointed commander in chief by the Continental Congress in 1775, as Washington was, would have had a good deal of instant heroism thrust upon him. Before he had given the order for a single shot to be fired, for example, while he was still encamped at Boston, babies were already being named after him.

In the same year, John Hancock commis-sioned a portrait of Washington from Charles Willson Peale, one of a number that Peale was to paint. It quickly became a familiar popular image. Before long, images devised by other

artists were being mass-produced, 100, where speeches, sermons, poems, songs, celebrations many of them using formulas or symbols that had until recently been reserved for the monarchy — made an equally prompt confid-bution to the spread of Washington's renown. Naturally, that renown would have evapo-

rated if his military record had been one of failure. For contemporaries, as Schwartz is minds us, his first claim to fame was that he was a war hero. But the very fact that this is something of which we might need to be isminded is itself of considerable significance.

For he was a warrior with a difference. In the first place, unlike most generals of comparable standing in history, he owed his reputation and so much to dazzling victories as to endurance determination and the steady defense of the

nation's rights. Secondly, he could never have gone on to achieve what he did as a statesman if he hadnot remained so reassuringly true to the princi-ple — as dear to 13th-century Americans as a was to the British from whom they inherited A - that military power must be firmly subswife nated to civilian control.

Schwartz gives many examples of the ways in which Washington persuaded his country men by word and deed that they need have no fear of him aspiring to be an American Caesar. The most picturesque is a detailed account of the ceremony contrived by Congress for the resignation of his military commission at Ananapolis in December 1783: From first to less he accepted and acted out a deferential role (howing to members of Congress at the appropriate moments, for instance, without having them

moments, for instance, without hardshow back in return).

Schwartz doesn't overlook Washington't private failings, and they don't make participarly agreeable reading. The great man could be mean-spirited, a harsh taskmaster, something of a humbug: While he was ready to fook. the bill for recapturing a runaway slave, he was anxious not to have his name mentioned in the relevant advertisements. Yet this is one case where the line between private and public deserves to be furnly drawn, and as a public figure he remained remarkably true to his pro-fessed ideals.

By and large, "George Washington: The Making of an American Symbol" is crisply written, and it is packed with graphic detail and telling quotations.

John Gross is on the staff of The New York

CHESS

By Robert Byrne

ANATOLY Karpov passed his last practical test be-

in Spain with a half-point lead over the Swedish grandmaster Ulf Andersson, but his play in several games was shaky.

In Karpov's game with Miguel Illescas Cordoba, a Spanish international master, we see the former champion dully plodding along until his oppo-nent's pointed attacking play jolts him out of his complacency. Still, it was only the 21-yearold Illescas's errors late in the game that enabled Karpov to

Karpov has, on occasion, shown a preference for the oldfashioned symmetrical varia-tion of the Tarrasch Defense, which arose after 5. P.Q4. After 6 PxP, KPxP, Black had

Since finishing White's mobilization was getting to be a problem after Illescas's logical 11. ...B-N512, Karpov reduced material with 12 NxN, PxN; 13 BxB, NxB, However, after 14 P-KR3, N-B3, White's development remained ineffective and lagging.

While Karpov slowly struggled with 19 QR-B1 to get a 33 KxR, P-B4.

rook into position to attack the backward QBP, Illescas singlemindedly prepared a mating at-tack with 19. . B-N1.

fore his title match with the fore his title match with the mover of the spaniard did not deign world champion Gary Kasparov in October, but not with flying colors.

The 36-year-old former could not reply 24 P-KN? bechampion won the recent Biller cause of 24. NxP!; 25 PxN, bao International Tournament of 24. NxP!; 25 PxN, bao International Tournament Nx PxN. 28 Px N3, BxN; 28 PxB, Q-B6ch; 29 B-B2, P-R7.

Nor could he defend by 24 N-84, Ban: 25 NPaB, Q-86; 26 K-R2, because of 26. . . N-N5ch!; 27 PxN, P-R6, 28 Q-B1, QxR, 29 KxP, P-Q5! with a

decisive attack. On 24 PxP, it was possible to recapture 24. QxP but White can defend by 25 Q-B5, R-K4; 26 Q-B3, N-K5; 27 K-B1 when 27. N-N4; 28 Q-N4. QxRPch; 29 QxQ, NxQ; 30 K-N2! yields White a very

strong endgame. After 24 . . Q-B6!, Karpov began what had become a desperate defense with 25. . Q-R4!, Illescas indicated that he

ponent off the hook.
But why did the Spaniard fail

Shaky Reds Swept by Cardinals Terry Pendleton's two-run single plate in both innings against Bill

CINCINNATI — The Cincin- capped a three-run St. Louis first nati Reds have been swept at home inning and Tommy Herr's two-run by St. Louis for the first time in 14 double highlighted a five-run fifth. years. That may or may not be a The Cardinals sent nine men to the sign that the Cardinals may finally have righted themselves for the stretch run - but it certainly is a warning sign for the Reds.

Cincinnati was last swept at home by the Cardinals in June 1973. Sunday's 12-6 victory (climaxing a three-game sweep on the

BASEBALL ROUNDUP

heels of a five-game losing streak) enabled St. Louis to maintain a 442 game lead over New York in the National League East. The thirdplace Reds trail San Francisco by iwo games in the Western Division.

The Cardinals, who were shut out twice in one week after scoring in their first 111 games, got back in a groove with 17 hits off Cincinnati pitching, which also surrendered seven walks.

Pere Rose, the losing manager. kept the clubhouse door closed for 21 minutes after the game. "I don't think it takes much imagination to know what I said," Rose remarked. "I just tried to tell them what's in front of them, how many games are left and what they have to do. It's getting late. I saw what I thought was a lot of guys going through the When the dust finally settled on Sunday, Barry Lyons had tag-ged out Tim Flannery to help New York beat San Diego, 9-2. going through the motions."

Gullickson (10-11), who has lost five straight decisions. "I hope it's going to be like that the rest of the year," said the Cardinals' Vince Coleman, who singled

on the game's first pitch, stole his

82d base on the second and scored

when Ozzie Smith slapped the third

into left for a single.
"Our game," said Cardinal cleanup hitter Jack Clark, "is to put

pressure on both offensively and

defensively. It's O.K. when every-

body's doing well at the same time.

But when they're not, we have a

difficult time winning games. We

don't have guys capable of hitting

That has been the St. Louis story

in recent seasons. The Cards win

when they hit, because they always

pitch decently and play strong de-fense. That was so in 1985, when

they won the pennant. It wasn't so in the first half of 1986, when they

looked like a 100-loss team, but it

was in the second half (when they

began to hit and finished near .500)

and again in the first half of 1987. "We hadn't hit since the All-Star

Game," said Manager Whitey Her-

zog, whose team is 17-20 since the

break. "The 10 days before Satur-

day's game, we were really in a slump." But that night a 14-hit on-slaught rallied the Cardinals from a

7-1 deficit, and the attack was even

said Coleman. "It's a mighty poor

Molitor Singles; Hit Streak at 38

The Associated Presi

MILWAUKEE - Paul Molitor lined a lifth-inning single off Charlie Leibrandt to extend his hitting streak to 38 games, and Bill Schroeder and Greg Brock each drove in three runs, leading the Brewers to a 10-5 victory over Kansas City here Sunday. After flying out in his first two at-bats, Molitor started the fifth with a sharp single to left, giving

him the fifth longest streak in modern major-league history. Molitor is chasing Joe DiMaggio (56 straight games in 1941), Pete Rose (44 in 1978), George Sisler (41 in 1922) and Ty Cobb (40 in 1911). "Thirty-eight," Mo-litor said. "That's a long time, you know, but those numbers still seem far away out there. I'm still trying to take that onegame-at-a-time approach." He will try to make it 39 straight here Tuesday night against Cleveland's Ken Schrom.

Echoing Theme: Cuba vs. U.S.

By Michael Janofsky New York Times Service

INDIANAPOLIS - There were times during the previous 16 days when it seemed as if the Pan American Games would never reach this point, what with political protests, fights, a visa denial and positive drug-test results (not to mention transportation breakdowns, overcrowding at the athletic village, disputes over the drug-testing procedure, and oh yes - competition in 34 sports, a Pan Am record).

But the closing ceremonies nally arrived Sunday night, with more than 40,000 in the Hoosier Dome to watch the flag of the

United States lowered and the next Pan American Games, slated for Havana in 1991.

It was a fitting ending, for if these games had one theme, it was the presence of nearly 600 Cubans and their political and athletic impact on the games.

Not since Fidel Castro became the country's leader in 1959 had so many Cubans traveled to the United States at once, and their participation here served as both a lightning rod for anti-Castro groups and a counterpoint of compension with the United

Gymnasts Get Psyched

INDIANAPOLIS - During the final round of the gymnastics team competition last wek, Kristie Phillips fell off the balance beam, a slip that enabled her reammete Sahrina Mar, to slip past her for individual honors, 77.550 points to Phillips's 77.475.

Later, when Phillips blamed the mistake on a lack of concentration, two men in the back of the room knew exactly what she

Keith Henschen and Rich Gordin are sports psychologists who work with elite U.S. gymnasts as they wend their way through major competitions such as the Pan American Games. Their job is to chart the psychological maps of each performer and teach them skills that enhance their programs and thus increase their scores.

"I consider myself a stretcher, not a shrink," said Gordin, who works at Utah State in Logan. We try to stretch human potential, rather than shrink problems."

In recent years many sports teams and organizations, professional and amateur, have added psychologists to their staffs. In women's gymnastics, the need grew out the enormous pressures on athletes so young performing in high-stress situations around the world. The six U.S. girls that won the team gold medal Thursday night are 15, 15, 16, 16, 17 and 20 years of age.
Mar, 17, said she could not

have performed so well had she not worked with the team psychologists. Their exercises, she said, have brought her self-confidence, relaxation and improvement.

"I used to tense up and doubt myself," she said. "If I made a bad move, I used to let it affect me later in the competition. As a result. I'd get really nervous and hold back and be cautious, instead of going all-out. Now, I've learned that I shouldn't dwell in the past. I concentrate on the

The doctors taught her how to use "imagery," a technique in which she imagines the perfect routine or move before performing it. Almost all of the girls use the technique to some degree.

flow of concentration on one move is interrupted or quickened. In either case, the temporary loss of concentration can produce a mistake --- what happened when Phillips fell off the beam. Henschen, from the University of Utah in Salt Lake City, said a gymnast might have as many as 16 "concentration modes" within an 80second routine. A high score usually indicates the athlete has been able to move her focus of concentration smoothly from one manerver to the next. "Most of them think narrow in

focus," Henschen said. "But then they have to quickly broaden out to the next move. It has to

Kelly Garrison-Steves, hol-

be automatic." To understand the psychological makeup of each girl, the doc-tors give them a battery of tests

that help determine their selfimages, their abilities to concentrate and how well they handle pressure and stress. Then they tailor individual

programs for each athlete.
We take what they do well and build on their strengths,"

Gordin said. "They don't get to this level without having some psychological skills. But we try to maximize them as a person, not just a gymnast."
From all appearances, their

work has contributed significantly. The United States easily won the team competition (385.950 points, to Cuba's silver-medal 376.375); the United States took the top five places - Mar, Phillips, Kelly Garrison-Steves, Me-lissa Marlowe and Hope Spivey. And in Sunday's individual competition Phillips, Garrison-Steves and Marlowe won three of the four gold medals at stake.

- MICHAEL JANOFSKY

Never mind that the United flag of Cuba raised to honor the States ran away with the medal count (see Scoreboard), with Cuba and Canada a distant second and third, All that was expected. More umusual was the electric atmosphere generated by the Cuban athletes, especially in their games and matches with the United States

Whether it was boxing, baseball or basketball, a U.S.-Cuba match always seemed supercharged, and in those instances when demonstrators added excitement of a different sort, the event became that much more memorable.

By the end, Cubans like runner Ana Quirot and Josephina Capote, perhaps the best female volleyball player in the world, were sharing media attention with the anti-Castro protest groups, Cuba Independiente y Democratia and the Cuban-American National Foundation.

Nor will those involved with the games soon forget the flap over the shooter from Chile, whom the State Department would not let into the country because of his background as a member of the Chilean intelligence service.

Or the Chilean equestrian who was let in, only to become the subject of a court action in which two women accused him of 72 murders in 1973. Or the fight between four

Cuban boxers and several members of Cuba Independiente y Democratia that left one person from the anti-Castro group hospitalized.

 Or the boycott threatened by the Cubans when they learned that the band that would play at the closing ceremonies, Miami Sound Machine, included a woman whose father was once a bodyguard for Fulgencio Batista, the ruler Castro overthrew.

• Or the never-explained discrepancy between the president of the Pan American Sports Organization, who insisted all medal winners were being tested for drugs, and the chief doctor, who said only some were.

Or the arrival Saturday of a senior Cuban government official who had graduated from a U.S. military school in 1953 and eight years later commanded the ding the U.S. flag at the Cuban troops that defeated inclosing ceremonies Sunday. vaders from the United States at the Bay of Pigs.

By Sunday, one had to wonder if Indianapolis wasn't feeling just a little worn out.

Ted Boehm, the chairman of the organizing committee, was discussing a rainbow of events the other day. He looked tired but satisfied. Ticket revenues would exceed the projected \$8.7 million. The games would, at worst, break even. And most of the operational breakdowns that marked the early days of competition had been repaired.

By most accounts, he and his staff and 30,000 volunteers had done a marvelous job, considering that the games had been awarded to the city barely and a half years ago.

Had the experience, on balance, been enjoyable? "If you're asking me today if I would do it again tomorrow. I dare say any planner would look at you and say, 'Are you crazy?' " he said. So tomorrow, no.

"But would or should Indianapolis consider another multisport endeavor in the future? Sure. Five years from now, there will be a new generation of leadership ready to go. I'm sure they would say, Why not?"

Top finishers and earnings in the Western

OAK BROOK, Illinois - D.A. Weibring, the first man off the tee, shot rounds of 69 and 68, then watched and waited as PGA champion Larry Nelson's challenge fell short, enabling Weibring to win the weather-shortened Western Open golf tournament Sunday.

(UPI, AP)

Weibring had to survive a two-day wait to get started, two rounds of competition Sunday and a two-hour wait before winning the second title of his PGA career. He was in the clubhouse with a 54-hole total

of 9-under-par 207 two hours before Nelson came to his 36th hole of the day with a chance

But Nelson, who ended a 3-year victory drought with his PGA triumph two weeks ago,

missed a birdie putt that would have forced a

playoff in one of the most unusual tournaments in recent years.

The double-round windup was necessitated by storms that washed out two days of play, forced organizers to cut the tournament from 72 to 54 holes and delayed the start of play from Thursday until Saturday.

Nelson (67, 69 on Sunday) and Greg Norman (70, 69) tied for second at 208, 8-under on a layout comprising nine holes at Oak Brook Golf Club and nine more at the adjacent Butler National Golf Club.

"I don't care if it was a 54-hole tournament," said Weibring. "I don't care if it was played on two different

nines on two different golf courses. "I don't care if I had to wait two hours.

Weibring Wins Storm-Shortened U.S. Golf "This," said the Illinois native, "was worth it.

This is something very special." Weibring won as he stood on the practice tee getting ready for a playoff, listening over the radio of a nearby tournament official and not watching as Nelson looked at his birdie putt on the 72 hole.

"First, they said it was a 15-footer [4.57 meters]," Weibring said. "Then they said it was a 12-footer. "I was afraid it was going to get down to four

"It was nerve-wracking."
Weibring, 34, collected \$144,000 for his first

victory since 1979. The biggest paycheck of his 11-year tour

career pushed his earnings to \$329,391 for the ESCORTS & GUIDES

ART BUCHWALD

Builder in Paradise

WASHINGTON — No man is the air rights and go up 20 stories. But it would be worth it to get a keep men from wanting to develop one. Perregrine is a builder who came up to my island to get away from the hustle and the bustle of

Washington. "Is this all there is?" Perregrine asked, looking critically at a harbor

filled with sailboats. I was embarrassed that there was so little to show. "No," I said,

more inland, including lagoons, ponds, acres of forest, dunes and babbling brooks."

like it. There is nothing that motel rooms as well as babbling Buchwald

"You're not thinking of building a motel on the island?" I asked in

"No, I'm not, because I'm on vacation, though if someone were to give me an option on this farmland over here I would drop my vacation plans to conclude the

"I know the farmer. The land isn't for sale." "All land is for sale if you offer the right price. Of course if the terms are too high I will have to buy

Glyndebourne to Use Surtitles Next Season

The Associated Press LONDON - Glyndebourne Festival Opera will project a simultaneous translation of a foreign language libretto for the first time for one production during next

year's festival, according to its chairman, George Christie. The idea will be introduced by the festival for all performances of Leos Janacek's Katya Kaban-ova, which will be sung in the original Czech. The decision follows a controversial but successful experiment at the Royal Opera House. Covent Garden, last November, when the projection of "surtitles" was tried for the first time in Britain, with Janacek's

view of the harbor and the ocean at the same time.

"Come on, Perregrine, let's go to

the beach." "I'm glad you mentioned the beach. Why don't we open a beach club and sell memberships for \$25,000?

"We don't need a beach club. We want the island to remain the way it has been since Indians first came here to get away from burn-out and the rush hour.'

Perregrine said, "We won't change it — we'll make it better. Perhaps instead of a motel we could build a shopping center. There can't be any objection to

"There aren't enough people on the island to support a shopping center."

"Then we'll build an apartment complex, with a six-lane highway so people will be encouraged to come here and spend their money." "Perregrine, you came to the island to get away from it all. Why do

you want to wreck the place?" "When I see a piece of empty land I have to build on it, or I get a headache. You people don't know how to live. You can't be part of the human race without fast-food stores, stadiums for rock concerts and cellars for discos. Once they are built all good things will fol-

"We don't want to do anything here but fish."

"If you care to fish I'll build a marina with glass-bottomed boats. You'll make a mint on them."

I was furious. "People who live on the island don't want to make money. We came here to get away from that." Perregrine said, "We'll keep our

bulldozers out of your way.' "What bulldozers?" "The ones we always level off the sand dunes with before we pour cement for the condos."

"Perregrine, I didn't invite you to this island so you could destroy

You say that now, but you will bless me when your land values triple and each person on the island owns a piece of the only dog race track between the Cape and Nan-

The Return of the British Native

LONDON — Last January, viewers of BBC 2's "Forty Minutes" saw a documentary by Molly Dineen called "Home From the Hill." It was about the return to England, after nearly 50 years in the colonies and ex-colonies, of Lieutenant Colo-

nel Hilary Hook, late of the 7th Hussars. They saw Colonel Hook, who had just been evicted with five days notice from the

MARY BLUME

house in Kenya that he had lived in for 20 years, supervise the packing of his polo kit and the dismantling of his rhino weathervane, shoot his glass chandelier to bits, and write a reference for his Kikuyu butler, whom he describes as a hardworking, honest, loyal and humorous little man. "He is, incidentally, a teetotaler which is, of course, an untrustworthy habit amongst one's friends but not amongst one's Afri-can butler friends," he concludes, adding, To quote Mr. Kipling, he was my servant

and a better man."

They saw Hook return to England, which he had left in 1937, move into cramped modern digs in Wiltshire ("I don't know where to put anything, bugger it"), inspect the electric heating ("this is totally beyond me, I've dealt with natives bringing in firewood all my life"), buy thermal underwear, cast elegantly for trout, stock up on vocks and Scotch, and listen with total inattention to a nice lady at a polo match who is trying to teach him how to cook. "What I really want," he lies courteously, "is to learn to make cottage pie."

The mailbags were full the day after the program went out, BBC producer Edward Mirzoeff says: "I found it extraordinary that some of the toughest women in Fleet Street rang up with tears in their eyes saying could they go round and cook a meal for him." They couldn't since Hook takes his nourishment in a glass, ending with a bedtime Ovaltine and Scotch, so they settled instead for a chin-wag and a drink. In no time, Hook was a media star, the year's most unlikely and most charming cult figure, The Observer said.

He turned up on TV chat shows wearing a suit made prewar by his regimental tailor ("I don't suppose I've paid for it yet"). He lectured on a cruise ship ("There were lonely hearts clubs and you could learn tap dancing. I don't want to learn tap dancing. Sheer bloody hell"). And although his only previous excursion into print had been a letter to Time magazine in the 1970s which began, "What an abominable blot is Auberon Waugh," his memoirs, "Home From the Hill," published last month by the Sportsman's Press in London, are on the best-seller lists of The Times and Sunday Times and into a second printing. CBS

came to film him for "Sixty Minutes" and on Aug. 25 the documentary that started it all will be replayed on BBC 1.

"It's all a bit of a bore," Colonel Hook said over a glass of what killed auntie in his living room. "Too much like hard work."
He seems too good to be true: a regimen-

tal Rip van Winkle, Colonel Blimp faced with rock stars and concrete and obdurate can openers ("You do this, darling, I." can't"). And of course, as he would be the first to admit, he isn't true. "It's all rather tongue in cheek," he says. Irony is the uniform he wears in mufti.

Hook is indeed a relic from colonial days, but in almost 20 years of tunning luxury photographic safaris in Kenya he estates of what he lightly refers to as his salari victims and so is not entirely unfamiliar with Britain today. He is indeed a member of the Kipling Society (enrolled by the explorer Wilfred Thesiger) and he read James Elroy Flecker while with the Camel Corps, but he adores Nabokov and (Evelyn, not Auberon) Wangh. Like many men who have spent weeks on lonely patrols, he likes gossip, leg-pulls and vivid yarns.

"There wasn't a subject he couldn't talk about and what he didn't know I suspect he invented," he says admiringly of his eccentric half-brother Raymont, a painter who lived in Kenya and raced cheetahs at Wembley. Hilary is a mixture of two of his favorites, Rupert Brooke and Basil Seal. He was born into a large family in Devon in 1917. His father, born two years after the Indian Mutany (his father was born two years after Waterloo), was a painter who made landscapes in Kenya and sired ten children. His mother was a parson's daughter. "She was totally unshockable. She'd been through all those bloody wars, had all her relations killed. She was frightfully humorous and very literary. She read aloud brilliantly, as Victorian people did. My ear caught it somehow." Hilary, the youngest penniless, went to Sandhurst and joined the Indian Army at 19.

"I merely joined the military to have access to a bit of fun," he says in the documentary. "I didn't join the military because I was devoted to the fife and drum. I joined the military so I could play polo. go pigsticking, shooting, fishing, hunting, have a jolly time with a lot of jolly fellows."

It was what he calls an "artful abuse of Her Majesty's time." He joined the smart Royal Deccan Horse where two polo ponies were issued free but the waistcoat worn nightly at mess cost 40 prewar pounds. When World War II broke out, the regiment waited to be mechanized, but material kept being diverted elsewhere so the impatient Hook gave up his commission and left India to fight as a private in New Guinea and Burma. Typically, in his

Colonel Hilary Hook

book, he devotes less space to this unpleasantness than to the joys of pigsticking and

After the war he regained officer rank with the 7th Hussars and spent all the money he didn't have. "They were all rich chaps and I rather overdid things, hunting three days a week and shooting two." As an economy measure he joined the Sudan Defence Force in 1949 and later returned to newly independent Sudan as British military attaché in Khartoum.

The Sudan was his high point. "It's the most ghastly country in Africa, I suppose, but everyone who served there loved it. The Sudanese are frightfully nice people." He was so fond of the Dinka tribesm en that he named his black labrador Dinka.

Hook's wife (they have since divorced) had been raised in Kenya and, after leaving Khartoum, Hook became hunter in charge at Treetops before organizing what he calls his safari racket with Major Digby Tatham Warter. He rented Kiserian ("peace" in Masai), a handsome sprawling house at the foot of Mount Kenya, from an African farming company for £25 a year and lived there with grace until it was sold to a businessman who demanded immediate

By chance, Hook's younger son, Harry, and his girlfriend, Molly Dineen, both film students, were at Kiserian when Hook got his eviction notice. Molly took the extraordinary footage of Hook leaving for England and the film "Home From the Hill" was born.

Harry Hook, 26, has made four short

SWITZERLAND

films with his father, one of which, "Before I Die Forever," was shown this month at the Edinburgh Festival. "Hilary's a good actor, a very good actor," he says, "and just

as hard as professionals to work with." Hook's Kenya was not the wide-screen marvel it has become nor was it any longer the Happy Valley Kenya, "the Regency relived by red-necked settlers," of between the wars. Unlike more tragic colonies, highland Kenya had no mineral wealth to tempt the greedy and was settled by well-born and high-living farmers. "Rhodesia was where the other ranks went and Kenya was where the officers went," Hook says. "Extraordinary setup, isn't it? You lived by the sweat of your brow or on your private income and then you played the ass."

Hook ran his safaris with military skill and an aesthete's eye, especially in the Mara near the Tanzania border, where he would rent a 60-by-90-mile "block" into which no one else could enter, and in that wilderness would set up a luxurious tented camp with eight servants, Persian rugs and excellent food. "You could spend a fortnight and not see another motor car or another motor car's tracks," he says. "Now it's an absolute crisscross of striped vehicles whizzing about, and airplanes."

It was probably time to go. "Yes," he says, "I'd always planned to lay my bones in England."

He hadn't however planned to lay them in an England where he would enter into a foodshop in Yorkshire and see something called Coionel Hook's Safari Chutney for sale. "I can't even boil a bloody egg," he says. When the Sunday Telegraph printed another "Hook" recipe, he was quicker on

the draw. "The recipe said you bash your tomatoes with a hammer or crush them with a spoon. So I wrote the Telegraph and said you've got it absolutely wrong. You always have a little boy in the kitchen called the Kitchen Toto who cleans up for the cook. The proper way to do it is to squash the toma-

toes with his heels." In Kenya there are over 1,000 species of birds, in the British Isles there are less than 500, most of them dull brown by comparison. The first thing Hook did in Wiltshire was put up a bird table that he can see from his living room. "I was mad about birds when I was a little boy and it's rather nice to get back to English birds again," he says. On his return to England, Hook went

back to South Devon to walk again on the cliffs where he had collected birds' eggs as a boy. He also visited his 90-year-old nanny. "You were a pretty little boy, you were," she said, "where did you get all those wrinkles?"

"Long years in bad stations," Hook re-

EMPLOYMENT

PEOPLE

Sean Penn Switches Jails To Complete His Term

Sean Penn decided not to return to the rural jail where he served the first part of a sentence for probation violation and has checked into the Los Angeles County Central Jail to complete his term, officials said. Penn. 27, was backed into the downtown lockup late Saturday. More than 5,000 prisoners are confined at the Central Jail. The busband of the pop star Madoana. served the first five days of his term in the Mone County Jul in Bridge port, in northern California, where port, in normer in lodging. He was a released Aug. 6 to resume motion picture work. With time off for good behavior Penn will have to complete only a total of 32 days of the 60-day sentence.

Harper's magazine lists "Ameti-ca's 10 Most Benutiful Women" in its September issue, with the actresses Candice Bergen, Lisa Bonet; Anjelica Huston, Andi MacDowell and Virginia Madsen leading the parade. The magazine reported the women were chosen partly because they are "hot." highly visible and involved in an upcoming film series or project. Rounding out the list of American beauties are the actresses Marlee Matlin, Michelle Pfeiffer, the CBS "60 Minutes" correspons dent. Diane Sawyer, the model Christy Turlington and the actress Sean Young. Bonet and Turlington, both 18, are the youngest on the list, while Bergen, 40, and Sawyer, 41, are the oldest.

Mstislav Rostropovich received a standing ovation from 5,000 people, who packed an amphitheater below. the Acropolis for a performance in aid of restoring the ancient marble. temples on the hilltop. The celehrated cellist teamed with the 24year-old violinist Anne-Sophie Mutter and Bruno Giuranna on the viola, played three Beethoven works in a concert he said was he had promised to himself for several years. "I've always wanted to do something for the Acropolis. We have to protect the great masterpieces that man has created." the Russian-born musician told reporters. After the performance, Rostropovich was presented with the silver medal of the city of Athens by Deputy Mayor Zachos Haddiobolar and attended a dinner given in his honor by Culture Minister Melina
